Disarming Oregon citizens, infringing on God given rights, "one bite at a time", is pure evil. Those who have "armed security" wanting the rest of us "lawful citizens" unarmed, are the most selfish people on earth. Almost every act of mass gun violence, takes place in a "Gun Free Zone". SB 978 is another "bite at the apple" that will do nothing to stop criminals and terrorists from doing harm.

Actually, that is not completely true, it will facilitate their deeds.

They will have, not only a better chance of carrying it out, more victims. They will also have a better chance of getting out, so they can do it again. All of the people who would support SB 978 are devoid of reading unbiased, real statistics, produced by the FBI and others. Where criminals know the potential victim may be armed, they skip them, move on to the next unarmed victim. Statistics showed that following the Clinton assault STYLE weapons ban, gun crime went up. Immediately following it's expiration, gun crime went down. The demonized NRA represents millions of lawful gun owners in Oregon and across the USA. Anti-Gun Michael Bloomberg, who managed to stack the Oregon Legislature a few years ago, with his millions of dollars, only represents himself.

Who do YOU represent.

BTW: I support law enforcement, and have had and currently have, numerous law enforcement close friends. But they are just like us, no better, no worse. From the latest police woman who shot the black man in the wrong apartment, back to CHP Officer Craig Prior, who pulled over women in Southern California in the 1970's, raped and killed them.

They are of the same mix and therefore, WE should have no fewer rights to be armed than them. My concealed carry permit carries with it certain obligations, to be ready and able to protect, not only myself but others including you, should God forbid, the need arise.
