

What part of "shall not be infringed" do you people not understand? You can pass all the laws you want, but the fact that they're unconstitutional and therefore illegal mean most gun owners will not comply.

Add that to the fact many county sheriffs won't enforce such laws, which are unenforceable anyway, means that this is a pointless waste of time that serves only to make your lunatic base feel good, like you're really trying to do something to deal with so-called "gun violence."

Of course, you don't give a damn about violence, otherwise you wouldn't think it's OK to kill babies any time from conception to birth.

No, this is all about power and control. That's the only thing you care about and you'll do anything to obtain and preserve it. You know that in order to establish your tyrannical government, you must disarm people.

As proof of this, no anti-gun law you people pass will have any effect on killings because most if not all of the murderers are criminals. Only law-abiding gun owners are targeted by such laws, which is unfair in itself. A sad commentary on a country that prides itself on fairness.

Well, law-abiding gun owners will not be bound by such illegal laws, therefore we willingly become felons.

In case you don't know how this is going to go down, you might want to review the awesome history of our country when a handful of patriots stood up to a tyrannical government. Do you see yourselves in the picture? You should!

A recent court ruling in California has declared that bans on so-called "assault rifles" and limits on magazine capacity are unconstitutional, and therefore illegal. Do Oregon democrats really want to go down that road?

Not only will law-abiding gun owners not comply with such illegal laws, but Oregon could very well face the same court rulings that states like California, New York and Illinois have.

Give it up and focus on issues that really matter.

Thank you,
