

Sirs and Madams,

I could not make the hearing this morning, but I finally received a summary to read.

Quite frankly this bill is a travesty and is deliberately designed to criminalize honest gun owners.

It is written so vaguely that it can be interpreted to almost any degree desired if it is so wished to infringe on the rights of law abiding gun owners who do carry their guns for self protection in public.

And then it even dares to move within their very homes.

This bill is a direct attack upon honest gun owners and must be defeated.

Sincerely,
Anthony R. Nichols
