

Sir/ Madame: In your rush to strip away all gun rights from responsible, law abiding gun owners, you are getting people to write these bills who have no knowledge of, or experience with, firearms. As such, you are writing bills that are not practical or technically even possible, and which will not withstand the inevitable legal challenges. I have left the Democratic Party over this. I'm very disappointed. 38% of Oregonians own firearms. You are showing them no respect. (I'm prepared to ultimately leave the State over this and move to Idaho, or Arizona, where gun rights are respected.)
