

Sens Prozanski, Chair
Sen Kim Thatcher, Vice Chair
Members of the Senate Committee on Judiciary

The right to bear arms shall not be infringed!

Amendment #1 is an affront to those of us that support our 2nd amendment right to keep and bear arms, Appears that this was prepared well in advance and SB 978 was a setup. I will never vote for any legislator that says AYE to this type of legislation.

Old enough to Vote and serve in the military is good enough As to Firearm storage,
More rules and regulations that stifle and infringe on our Constitutional rights! Some of these rules make the gun owner liable when a weapon is used unbeknownst to them.. insane!

Making my firearms available for use if needed is a priority for me and my family as I live in a rural area, secluded off the road, I want to be able to have a loaded firearm at my reach without being an outlaw.
