

Hello,

I'm taking the time out of my busy life after working for 10 hours today and emailing you because I do not want to become a criminal for being a law-abiding gun owner/citizen in Oregon. I have read SB 978, I'm appalled that lawmakers and OREGON have decided to come after law-abiding gun owners instead of tackling some of the many other less regulated issues we have going on in the state. The current bill put forth will not make criminals think twice before they continue to be criminals but it will certainly have the effect of disarming many law-abiding citizens for fear of becoming a criminal by not being able to follow these (truthfully)absurd laws you're trying to create. Please, Vote NO—on 978! I do you feel like OREGON has plenty a good gun laws and if the state police and counties would actually enforce the current laws on the book we would have much more success than trying to find more laws that will only be enforced in certain circumstances some of which could be political in nature. Once again vote NO on 978.
