

I'm writing to oppose your ridiculous gun legislation. It's amazing to the people of Oregon that our state representatives have the audacity to rule our lives on subjects they clearly do not know anything about. Who wrote these Bill's? A 10 year old? Because it's more than clear you people are literally brain dead on the subject. You have literally zero knowledge of the gun industry, guns, accessories and everything else. One thing you fail to respect and will soon realize is that We the People aren't going to be told what to do when it comes to protecting our families and ourselves. You're sadly mistaken if you think we aren't sick of your BS.

You're elected officials, you claim to be experts on any given topic. We see through your BS. Your Bill's are horribly written, lack basic English skills and clearly show how foolish you and your colleagues are. We voted you in (yeah most of you're lying cheaters and that plays a role in your re-election) but we will vote you out. Democrats are completely out of touch with Oregonians and reality. Your days are numbered! I say YOU COME TAKE IT! We know what your end game is, and we will stand, with law enforcement on our side!

I speak on behalf of 80% of Oregonians!

If you value your role in state government you better pull your head out of your asses!
