

In regards to SB 978 you should be completely ashamed of yourselves for even considering this. it began as a simple bill only a couple of paragraphs and has been morphed into 44 pages of unconstitutional law that will put many Oregonians lives in jeopardy and make many more law abiding Oregonians into felons.

there where testimonies given that made reference to the Clackamas mall shooting. However, the part that was forgotten and left out was how the situation was ended. it was not ended by police. The threat was terminated and potentially many lives saved by one man with a concealed firearm, and he did not even fire a shot.

Please do not force more Oregonians to become victims or cadavers with this ridiculous and unconstitutional bill. Governor Brown used the phrase "common sense gun laws". this my friends is not common sense gun laws.

I implore you to do the right thing and vote NO on SB 978
