

Your attempts to destroy the US Constitution are unenforceable. Never will a free people submit to a fascist state under these fraudulent "laws". Your endless attempts to imprison people for exercising inalienable Rights, will see you lose in the Supreme Court. Seldom is legislation so poorly written and unenforceable as what is drafted in Oregon. You'd think the majority party would be embarrassed by such trash. Simply by the fact you must introduce all language as an emergency, it's clear you've abandoned representing people and given yourselves over to being actors whose only intent is robbing from citizens. Simply put Oregon Democrats are a corrupt body politic and exist only to threaten American values.
