

Hello, My name is Michael Kemper. I am writing in opposition of SB 978. This bill is over forty pages of complete nonsense! I don't even know where to start ripping it apart! This bill does nothing to stop criminals or mad men from doing harm to lawful people! This bill does however put unreasonable restrictions and burdens on lawful citizens and their constitutional rights! This is absolutely ridiculous to even be considering SB 978 because anyone can tell it is a violation of the United States constitution and the state of Oregon constitution! This is obviously a political ploy by rich out of state donors and not the people of Oregon! All someone has to do is look at the number of people that made the trip to testify in person on Tuesday, April 2, 2019. The majority of those people were turned away and not allowed to testify after arriving early to the capital! I can't stress enough that SB 978 should be tabled indefinitely! I promise you if this bill passes I as a proud Union worker will make sure that the portion of my union dues that goes to support political stuff will be redirected and I will never again vote for a Democrat candidate at any level of government! You will loose any and all support from me forever!

God Bless America and long live the republic, Michael Kemper
