

Senate Bill 978 is highly unconstitutional, both on a federal and state level. I personally feel as if the politicians in Salem don't care about protecting our rights, they seem all too keen on taking them away. Obviously they know they couldn't pass this bill by putting it on the ballot, so they're trying to sneak it passed us. The bill itself will make law abiding citizens criminals, yet it won't stop criminals from being criminals and it'll leave the innocent unable to defend themselves. The fact of the matter is that murder is still illegal, yet people still do it. This will stop no criminal from buying a gun, carrying a gun and doing bad things with a gun. This will only hinder good people from defending themselves against evil.
