

Before you vote on this poorly written, broad violation of the US Constitution and State Constitution; think about the consequences. These illegal laws only effect people who have done nothing wrong and will turn many good people into felons overnight.

This is America and we will not be disarmed our Natural Born Right of self defense. Think of the women you will put at risk, think of the children in public schools that you are putting in danger by creating more "Victim enabling zones", think of the future when it may very well be your children or grandchildren being loaded into boxcars. These laws are illegal, Unconstitutional, ridiculously broad, sometimes un-interpretable, and we will not comply. We are many, we are watching, we will hold you accountable in your own districts, and we are fed up with you ignoring the people as you embrace the Public Employee Union, the Portland lunatic fringe, and whore your selves to Bloom berg. Vote no on SB 978.

In Liberty,
Chris Brumbles.

Got up at 3am to make it to Salem in time to testify on this unconstitutional ridiculously broad overstepping of your authority and was not called. Instead I heard our dimwitted Governor openly thank corporations for violating the law and practicing age discrimination, something that you all want to make legal with this illegitimate anti- law. Anyone voted for this sham will be held accountable in their districts, plans are already being made. We will not comply. You do not have the power to enslave the people whom you work for. Vote NO.

In Liberty,
Chris Brumbles.

P.S. It is not just gun laws, you all need to slow the hell down and quit trying to enact the whole communist manifesto in one session.
