

My name is Charles McCulley. I ask of you to vote no on SB 978.

Please do not remove our right to defend ourselves and our families. This bill also makes law abiding citizens accountable for the crimes of others. It takes away the ability of a CCW holder to have a reasonable place where he/she can legally carry and makes criminals out of honest people. Guns will be stored in cars temporarily and be more open to theft from actual criminals.

All of the focus is on limiting the people who are not the problem.

Please consider focusing efforts on bullying, mental health, drug treatment programs, and homelessness. All things that are a real problem in Oregon and will do more to prevent gun violence than criminalization those who could stop an attack and save many lives while defending their own as they have a right to do.

Thank you for your consideration,

Charles McCulley
