

Dear "Representatives"

I use the term "Representatives" loosely as you're not truly speaking for the people anymore. You're speaking for yourselves. Your willingness to try and take away the freedom of law abiding citizens comes to you way too easy. Your oath to uphold The Constitution Of The United States is failing. Not sure if you know it or not, but the Second Amendment is in that Constitution.

Pushing more laws onto the law abiding citizens will not stop the criminals. It is only making yourselves into tyrants and the citizens into felons. I oppose all gun laws! It's our God given right to defend ourselves from criminals such as, home invaders, rapist, muggers, car jackers, any attacker's for that matter.

Attacking the 2nd Amendment is not going to save the lives you claim to be worried about. You want to save lives. Focus on the number of vehicle accidents that happen every year. Focus on making abortion illegal. Focus on the amount of medical mistakes that cause death. Those three areas there are things you should worry about. Not Guns!!!

But please understand this most important point: The criminals will find the means and method to carry out their crime, regardless of whatever laws are forced upon us.

Respectfully Submitted,
Keith Murray II
