

This bill is very poorly written and far exceeds common sense. You are just trying to punish your fellow citizens just because they like to shoot and hunt.

You are making criminals of us gun owners for no real reason and it will not help to prevent criminals from doing bad things with guns.

Why don't you punish criminals trying to buy fire arms and drastically increase punishment for those who use guns in crimes. Why make the gun owners criminals for a bunch of nonsensical over restrictive laws that gun owners and hunters cannot comply with and still use their firearms legally.

Yours Very Truly,

William Price
