

I am very much against this bill. The major problem here is this bill will make it impossible for anyone to defend themselves, if their guns are locked up in a safe and have a trigger lock installed and you have a person entering or already in your house you don't have a chance of protecting yourself. Once again it goes back to the same old scenario, if you try to outlaw or restrict gun rights, the only people who are going to be armed are the people who are not abiding by the laws of society to begin with. How many times have you read "felon in possession of a firearm"? First and foremost they don't care, and if you are unarmed or have severely restricted access to a self defense weapon who do you think is going to be the loser? This bill is nonsense, once again the law abiding citizen is the "victim" in this case. The biggest problem in this country is no common sense, you don't leave a firearm where a child has access to it, you don't get behind the wheel of a vehicle after having consumed alcohol, you don't smoke or chew tobacco and then sue the company who sold the product. You see there are many circumstances where a law/ordinance has been put into place to "protect" the public from harm, has it worked anywhere? NO! So stop trying to take away our rights to legal gun ownership by making ridiculous rules on ammo purchases, magazine capacity, storage rules or any other hair-brained scheme you can come up with.
