

Dear Senators,

It seems apparent to me that the individual rights of the People, even those explicitly prohibited by government to abrogate, means nothing to those who author, endorse, and sponsor legislation contrary to the principles of freedom and government restraint with constitutional bonds. Gun laws don't stop crime. No law does.

Basically what is happening, is laws are being passed that will make the majority of law abiding gun owners criminals, felons who will then have government take their right to keep and bear arms away. It's obvious to me and to anyone paying attention that this comes from the same people who want a world government that will end the sovereignty of all nations who succumb to its umbrella. You are merely a pawn and you really think that you are doing the right thing. You're not.

I was born and raised on Philadelphia, just a short distance from where it all began. I have watched in disbelief as the Birthplace of America became a horrible place to live. I moved to Oregon in 1994 with my late wife, finding Oregon a place where life seemed to be better for enjoying one's freedom. That too, I have witnessed eroding by unconstitutional legislation.

I am sure that my words and the words of many freedom loving Oregonians will fall on deaf ears and blind eyes. You all have your agenda to follow and it doesn't include the protection of the freedoms of your constituents.

I truly pray that you will reconsider your choosing this path against good Oregonians. Because good People will only tolerate so much abuse before they say ENOUGH!
