

The ONLY purpose of the bill is to turn Law abiding citizens into criminals. It will do NOTHING to make anyone safer! An individual with a firearm secured with a trigger lock of stored in a locked container would not have the means to defend themselves in their own home.

The provision for "undetectable or untraceable" firearms is totally unenforceable as are all the other provisions in this bill. There were firearms manufactured with NO serial number for years before it was mandated to have a serial number and those firearms (mostly .22 caliber) have never been an issue. To my knowledge there has NEVER been an incident in Oregon involving an "Untraceable or Undetectable" firearm.

Allen Eriksen.
