

This proposed law makes politicians feel good.. but all it really does is turn honest, law abiding citizens into criminals for exercising their lawful right to self protection. It does NOTHING to stop the criminals from preying on the defenseless, honest citizen.

The SB 978 is more akin to what the NAZI's put into place to control and subdue the German population.

In this case, the cover story is that it is intended to "protect" the citizens. Same thing Hitler used as cover. What it ultimately did was make it easy for him and his NAZI party to plunder and pillage the citizenry.. and then the world.

We must retain a REAL right to bear arms.. against armed criminals (who would never comply with a law anyway), and against what the founding fathers warned us against.. a totalitarian government that wants nothing more than to subdue and enforce a radical new social order.. using force, of course.

Vote NO on this.
