

To Legislators

This note is to voice my vociferous “NO” to the bill.

1. Parts of the bill are unconstitutional both Federally & via Oregon Constitution..
2. Proponents of this bill are rejecting their “oath of Office”
  
3. Foremost, this bill is illegally requiring that I who took the same oath of office on 29 Sept 1965, and am committed by Congress to keep, rebuke same. While I am not arbiter of others, for me, my oath constitutes the depth of my ancestors, and future citizens of this great country. Country comes before political Socialism & malfeasance. Fix mental health, like you need to fix Foster Care.

In conclusion a couple of items. Political Concepts are not Humanist, and Humanist concepts are never political. This is a political charade. As well, DC V. Heller notes Trigger locks are not constitutional for they make the weapon moot in self defense.
