

Good morning, I am writing today to express my concern and my outrage at the gun measures the powers that be are trying to enforce. First of all I have lived in Oregon my entire life and paid a crap ton of taxes. I keep my head down and forge ahead working and employing people for many years. I have been so distressed about how our politics have been in the last few years that I can no longer be silent. The fact that you people are trying to impose gun laws that should never even be talked about as it is so Wrong! You took an oath to uphold the constitution when you took office so pushing for gun control of any kind is treasonous. I have been around guns my entire life. They have provided food for my family, fun target shooting and most of all protection. The right to protect ourselves is inalienable! My husband has traveled much of our life and when he is gone he carries for his own protection and I have one for the protection of my kids and myself. I'm telling straight up that if I were under attack in my home and my gun was unloaded or in the safe that NO criminal is going to take a time out while I run to the safe and unlock it and load it with bullets. I will be dead! I live in a rural area that if I call 911 it would be lucky if a cop could get to me in 15-30 mins.

Let's talk about ammunition limits- I should think that you would want the people with guns to be proficient at shooting. It is pretty hard to be good with 20 bullets a month and again you are acting as big brother. You are trying to put into law, conditions that would make me and millions more felons. The sneaky "relating to" clause in the bill is your way of doing whatever the heck you want, and the only way to get it done is underhandedly. I suppose we should be accustomed to this type of deceit from our state leaders as they really only represent a select group of Oregonians. You are punishing law abiding citizens instead of the criminal and I for one would like to hear one of you state how you are going to punish the actual criminal and not a law abiding citizen. NO MORE GUN LEGISLATION! It is illegal for you to try so cut it out!

Trudy Gregory

Vote no on SB978
