

This bill is nothing more than another attempt to further demonize and scapegoat gun owners for statistically very rare events.

Just like Donald Trump denies science when he says climate change isn't real, you deny the science of statistics when you say school shootings are common, when in reality they are extremely rare and the chance of a child being injured in one is astronomically low.

Just like Donald Trump fear mongers about and tries to scapegoat immigrants for crime, job loss, and other social ills, you fear monger about and scapegoat gun owners for your own political advantage, at the cost of further restricting the rights of good law abiding people in this state.

I urge a no vote on this bill.

Stop being like Trump, he's an asshole.
