

I urge a big NO vote on SB978!

Any law that is contrary to the Constitution is void.

The people, have the Constitutional right, no, they have the sacred duty, to hold their government accountable to them. And? To overthrow tyranny when necessary. When a state government starts to muck around with Oregonian's Constitutional Rights? Your getting pretty close.

A government cannot govern without the consent of the people. And you know that the vast majority of Oregonians are against this bill.

The sensible vote on this bill is NO. There is no question about that. And no amount of sugar coating, or twisting of words can hide that fact.

As an Oregonian, living in Kansas. It is difficult and is often embarrassing to admit to a Kansan, that I am from Oregon. And I would dearly love to come back in retirement to live out my last days close to the mountains that I love, and miss. But I just can't. I won't. I refuse to live under such an out of control progressive state government. Maybe someday huh?

I spent 20+ years in the Army. I traveled the globe and I used to be proud to say I was from Oregon. But not anymore. People look video of ANTIFA in Portland, they listen to the governor push her one sided agenda. And they just shake their heads from side to side, unable to believe it.

I'm not an avid hunter. I don't shoot guns much at all. But I own guns. Many of them handed down to me by my elders. And, they have a great deal of sentimental value. But, SB978 doesn't adhere to the Constitution. It doesn't even adhere to common logic.

Vote no, on SB978.

Sincerely,
Scott A. Myers
