

Oregon Legislators,

The follow is to be included for the record regarding HB978 and any other amendments, including inclusions to the Omnibus bill that will restrict gun rights in Oregon.

Notice and Demand to Cease and Desist

This Notice and Demand to Cease and Desist limits in no way the extent to the scope of the subject matter covered. This Notice and Demand does not limit any summary and plenary remedies available to anyone but serves as the beginning of the lawful process necessary by the acts and omission to act of the various principles or those accessory, in an effort to arrest the irreparable and immeasurable harm to the actual Public or People of the State of Oregon in acts committed by The Oregon State Legislature and other third part interest. By this Notice and Demand to Cease and Desist you are made aware and in knowledge of the wrongs and continuing wrongs of which you have a sworn Duty, Obligation, and Responsibility to protect the Public or "the people".

To the legislative representatives of Oregon's citizens,

As a citizen of Oregon, I oppose SB978 and any other anti gun legislation to be included in the omnibus bill.

I demand that you Cease and Desist with these violations of my God given rights to self defense which are backed up by the U.S. Constitution and the Oregon Constitution.

As Governor Brown has stated on record the Umpqua Community College shooting as her reasons to push gun control, none of the proposals would have prevented the incident. These proposals do nothing to address or punish those whose intent is to do harm to others, they only make law abiding citizens criminals. It is clear your intent, masked under the guise of public safety, is to disarm us.

All of you where elected to serve the people of Oregon, you are our representatives, not a leader who can impose their personal will and agendas upon us.

CEASE AND DESIST!
