

Dear members of the Senate Education committee:

On behalf of the Oregon Association for Talented and Gifted, I am sharing our support for SB 800. This bill promises to make it easier and less frustrating for high school students to navigate the dual credit system and to obtain college credit for the advanced work they have already completed.

We urge you to hold a work session and pass the bill out of your committee.

Thank you very much,

Sincerely yours,

Margaret DeLacy
