

Committee Chair Prozanski, Vice Chair Thatcher and Committee members Bentz, Fagan, Gelser, Linthicum and Manning:

My name is Daniel Kohler. I am a resident and City Council member of Keizer.

With rights come responsibilities.

While I am a strong supporter of our right to keep and bare arms, I also strongly feel the user of the arms I value the right to have, must be used responsibility and in a manor so as not to injure a person or property within the range of the projectile from the arms used.

SB1040 protects our property rights in Keizer from people neglecting or being careless with their 2nd amendment rights.

By making this bill narrow in scope it will protect our valuable 2nd amendment and provide safety and protect the many families I know personally living across the river from this so called quarry shooting range.

Please pass this bill to protect our citizens and our 2nd amendment rights.

Respectfully submitted,

Dan Kohler
