

*“Freedom is a priceless jewel, once lost would need an unparalleled martyrdom to seek its return”*

**Socialism/Liberalism the masquerades of Communism, would disarm the population, to set socialism.** Frederick Engels, the author of “Principles of Communism”, clearly illustrates Communism to rule worldwide. He perceives the necessity to transform human mentality for the success otherwise neither would nor occurred.

Over the years, since 1847, Communism with the ill-fated Marxist philosophical idea has tried to gain world domination, but so far had failed. There is not a single nation who has willingly accepted it, other than by force. This proves the movement which claimed to represent the “people” and liberation of the proletariat has been unable to gain the people trust. Nevertheless, they continue to pursue their goal using lies for its consummation. They have masqueraded to pretend be more palatable, but forever the same goals to affix absolute and total control. They hide behind false pretenses, given the impression of pacifists. They deny association with agitators and members of fanatical cultures but utilizing them as needed. A great example is Isis, providing trained terrorists. In America, with hypocrisy, they have denounced mentally disorder individuals for attacking public and community’s events, using the created fear generating confusion, lauding the idea of gun controls. They demand more stringent regulation to the rights to bear arms, claiming safety as the reason. It is disarming the population the real reason, by methodical elimination of the **2<sup>nd</sup> Amendment** from our Constitution. **The 2<sup>nd</sup> is the safeguard of our Nation and Rights.** Any manipulation or elimination is nothing more than an assault to Freedom, treason to our Nation Founding Fathers and to all the heroes who fought to the end to lose their life, for us to be free. Communism, Socialism same as other radical ideology, clearly are given us the blueprint of vassalage, it cannot be accepted neither tolerated; must be denounced and defeated.

Many Americans underestimates this radicalism, dressed as “pacifists”. Some say it is due to ignorance. I do not believe in ignorance, but I do so is by design. Some in America are in a clear path to accept subordination and absolute control, without knowing what Freedom is. Lies and persuasive methods are used. Destruction of history and traditions are factual, is occurring now. Hate has been promoted to agitate racism and discrimination, resulting in violent protests. Educational centers and the media have been assailed to inject Marxism for dissemination, in special to family household. **Without any doubt the task to eliminate the 2<sup>nd</sup> Amendment would continue blaming guns; the reason for continually manufacturing these gun control bills, only to suppress our Rights and Liberties.** All these illustrated mockeries and malicious “Gun Bills” are mainly funded by a small group of ill-minded millionaires with an insatiable appetite for power; using our Legislative system as the battleground to satisfy their appetite. The damage done has been deep, large and clear. No question Marxism preaching’s must be eradicated otherwise, our Freedom and Liberty would end. Be aware continuing in this irresponsible path, the Land of the free and Home of the brave would perish same as was in my native land and many other ones.

America is contemplating this transformation with tranquility, ingurgitating the poison pill of subjugation. However, the Marxists/Communists and masqueraded pacifist have ignored why so many, including myself embraced this Nation. We came legally. I came seeking the freedom I lost, when refusing to accept Marxism. For me same as others, vassalage and servitude to tyrants is out of the question. Sadly, I am contemplating this pristine Land, dancing with the evil of Socialism. It cannot be accepted. To keep silence would be sacrilegious. America is the last bastion of Liberty, we cannot let it go.

(Communism and Gun control)

History cites under a variety of Communist regimes, mass killings totaling an estimate of death toll numbering between 90 to 100 million; scattered worldwide (China, Vietnam, North Korea, Cambodia, Europe, Latin America, Africa)

After the demolition of the Soviet Union and the gradually increase of Socialism and Liberalism during the sixties, new headquarter must be found. With the well known patience of Marxism, the intellect and their perseverance, America is emerging as the front runner. After sixty five years from WWII, America has amassed the technology, richest and everything else anyone can dream of. However, there is one thing left to do, it is conquer America... This has been tried for years but, only recently getting closer. However, the final task is yet to be realized. This one could be difficult to achieve. There is an Amendment in our Constitution called the “2<sup>nd</sup>” “which is the eyes and guardian of our Rights and Liberties; given us the assurance to prevent the conversion of this country to Socialism/Communism or similar dictatorial regime. To disarm the citizens is well know principle to implement tyrannies. **Now is known the reason why Socialists favored gun control. It is clear they wanted to eliminate the “2<sup>nd</sup>”, anything else is a farce.**

Nevertheless, these Socialist, keep manufacturing those bills, hypocritically baiting the citizens with the idea of “safety and care for children’s”. These Socialists, advocating as Humanitarians are trying to rip this Nation. They are an assault to Freedom, Rights and Liberties. Socialism is nothing more than a malicious form to implement vassalage. Socialism is just a transitorily step to Communism, the ultimate of the Marxism system. These types of ideologies, when assailing a Nation, its only purpose is satisfy their obsession for power therefore, Constitutional Right must be abolish from the citizens at all cost. *Do you know what Freedom is?*
