STOP #Kids for Cash - #Kidjacking

The Big Business of Cruel Child Removals

There are over 8,000 Oregon children in foster homes across the state. Everyone knows the words "foster homes", "foster kids", "foster parents". All of these words exclude the facts you don't know about and never thought about. That's right, **Parents!** Where are the parents?

All assume that the parents are bad and so the kids were taken. Sometimes kids do need to go somewhere else to live, but studies show that even in bad homes children turn out better than in foster care. DHS has made the parents invisible. There is no word for them. They go unrecognized by society and are assumed to not count.

The real story is much different. When each child is removed from a family a huge cash machine of taxpayer money begins to spew out cash to a score of workers and services far and above what any parent could imagine. While a low income family with 5 children might be getting as much as \$1,000 a month in food stamps each one of those very same children taken into the clutches of the state becomes a cash cow generating thousands of dollars per month for foster families, lawyers, counselors, case workers, transport workers and CASA workers. All supposedly in the name of protecting children. But really in the name of cash. Mountains of it. The average child in state care in Oregon costs taxpayers a whopping _____per year. (Ask your legislator)

Churches recruited for Foster Care families by liberal DHS and Liberal policies that the State knows best.

**This will happen to you - No Family is Safe
Stop the DHS War on Families - Death in Foster Care**

Purpose of this Book

This book is an introduction to the desructive tactics DHS/CPS and the secret courts use to take your children away from you without evidence and without due process. For a speeding ticket you have the right to a trial by jury. DHS/CPS can take your children without due process in their jurisdictional trials in secret courts where DHS/CPS actions, judges' actions and court appointed lawyers are all protected by "gag orders" that supposedly prevent you from talking about what they are doing to you and your children.

Information given here should keep you from being **surprised** by the trauma that DHS/CPS will place on you and your family. This will be the fight of your life.

Hopefully you will be able to defend yourself from the **evil brutality** DHS/CPS will undoubtedly bring to your life. Here are some of the events that people have faced so that you will at least have time to plan and prepare yourself to face these evil deeds by DHS/CPS workers and judges. The rule of law is over. The courts are corrupt, a scam in a rigged system. The fix is in. Cozy court appointed lawyers will allow injustice to prevail.

DHS/CPS case workers lie in court, allow false testimony, hide discovery that will clear your name, suppress evidence and stack the case against parents.

DHS/CPS Oregon gets Federal Title IVE funds **ONLY** if they remove your children. The trauma they inflict on your children in so many obvious and subtle ways is without excuse. Their arrogance knows no bounds. They live in valuable homes with secure well paid incomes and promises of advancement to higher pay grades. Refusing instruction, DHS/CPS workers make their choice salaries off your children who are the cogs in their money making machine. Your case worker is making \$45,000 and up per year. Her area manager is making \$100,000 and up per year. Yes, you read that right, taking your children.

With Oregon claiming to care so much about women's rights the devastation DHS/CPS inflicts on mothers is unforgiveable. Federal Title IVE funds for destruction.

Maybe you have an exemption for vaccines?

Maybe you home school your children?

Maybe you are in a bi-racial or minority marriage?

Maybe you are from a low income family?

Well DHS/CPS has a plan for your children and it doesn't include YOU beyond the heart-ache they will cause you, the sorrow that you can not now imagine.

In the end DHS/CPS can not take your hope, your faith, your peace or the Love that God has for you.

We have an obligation to help others survive this great evil and demand that there be an accounting for what is being done in these secret courts by people paid to traffic our kids.

We have to take our country back if we are going to protect our families and our children.

under the color of law.**

Call to Action

Bring a class action lawsuit against the State of Oregon

This book is a warning to DHS/CPS workers. One day what you have done to families and children under the color of law will be recognized for what it is, a criminal act.

All material may be copied or duplicated. "DHS" "CPS" used interchangeably in this book.

A Family Defense Handbook

Stopping DHS Terror

How to protect your family from DHS/CPS, law enforcement, state terror, medical kidnapping and child removals. The family guide for fighting back.

DHS/CPS Will Destroy You

DHS/CPS will destroy you before you figure out what is happening and get up to speed. The “court appointed lawyers” will completely fail you and sell you down the river. This booklet is to help you come up to speed and **shock** you into realizing how serious and deadly their agenda is. You need every chance to protect your children, your marriage and yourself.

First understand that their actions are highly organized, well financed for the removal of your children and the destruction of your family for massive financial profit for agencies and social workers. (Yes, that is right, all those “nicely dressed” people) Your children are cash slaves and child sacrifices on their evil alter of greed and injustice.

What DHS/CPS will do to you and your children which you will watch in slow motion is like having your children killed in front of you. Something dies. Your heart will break. Your soul will be crushed. DHS/CPS case workers are ruthless. They are the children of Satan. They are not human. You are not dealing with people who have consciences or normal human responses or compassion. They will take the most common things and turn them into something evil. They will go in and out of DHS/CPS buildings in all their finery. They may even belong to your church. Of course they all know they are not being paid near enough. You will never deal with people more evil than DHS/CPS.

How to cope and protect yourself

1. Immediately note when DHS/CPS workers first target you and where it is coming from.
 2. Do NOT allow DHS onto your property or into your home even if they bring the cops.
 3. Understand DHS/CPS destroys families and causes enormous financial hardship.
 4. Increase your security, lock your gate! Install video on the approaches to your home.
 5. Do not talk to the police. Do not give information to DHS. They are not here to help you.
- Anything** you or your spouse say **WILL** be used against you. Count on it.
6. **Never** make any admission to DHS or the Police no matter who suggests you do so.
 7. Circle your friends and discover your resources: Family, Friends, Financial..
 8. Think about what you can sell or may be forced to sell.
 9. Tighten your belt. Halt unnecessary expenses.
 10. You will need to survive financial destruction in the worst event of your life.
 11. Conserve energy, simplify other parts of your life. Take care of yourself.
 12. Protect your \$'s by finding a good lawyer first. Not easy to find. Bad lawyers are no bargain no matter how much they charge.

13. Learn what a good lawyer can and can't do (or won't do) for you.
14. Know what you have to do on your own.
15. Contact your Legislator and Sen both State and Federal. Be at Town Hall's.
16. Get involved, educate yourself. Don't spend all your time blaming yourself.
17. Get on line to join related forums. Build a support network.
18. Help and encourage other abandoned families.
19. Realize there are no advocates for parents. Join or start a support group.
20. Don't waste time talking to people who don't care, expect that friends will walk away.
21. Keep a journal. Take notes. Write down what people said or did, time, location, date.
22. Know that court and visitation days can be devastating.
23. Don't expect other people to understand what is happening to you, most won't.
24. Will your church stand up to DHS/CPS ?
25. Educate people in your church.
26. Identify DHS/CPS case workers in your church and people working for DHS as support agencies or "contractors" who are profitting off this incredible evil brutality. Observe and avoid. Your children are a financial cash feeding frenzy for these people.
27. Renew your faith in God and prayer.
28. Preserve and strengthen your relationships.
29. Take care of your health at this time of extreme stress, loss of appetite and insomnia.
30. May God bless you and keep you, your spouse and your children safe.

Government Accountability - Elected Officials

Contacting government officials or elected officials can rapidly feel like an exercise in futility. Unresponsive or inept is what you may encounter. Make appointments and ask questions. In doing so you burn the bandwidth of otherwise unresponsive government officials. If hundreds of parents do this, they will have to reconsider their ways. It is about holding them accountable. Government officials easily push you to the side because they are incompetent to do their job, lazy or lacking in concern. They are out of touch with the reality of the lives so affected by the government they are appointed to oversee. Seldom will you feel they understand your concerns to the point they are going to take it upon themselves to investigate beyond being brushed off by DHS/CPS. "Oh, DHS told us....." and they move on.

Some things to brace for:

Your friends and family may turn against you. Churches look the other way. (They cooperate with government agenda to keep their 501-c) You may lose your job. You may get evicted. You and your spouse may get separated by the judge, divide and conquer. These people are cruel.

This will be the most difficult time of your life. It will test you to see what you are made of. You must hold all the complexities of your life together and somehow make it through.

About DHS

DO NOT believe for a minute that they are here to help you.

DHS/CPS do not believe that the state constitution or US Constitution apply to them. They have no problem violating your rights and assume you will not be up to speed as to what those rights are and how to demand them.

There is no punishment for DHS workers lying, making false or misleading statements in court. Their agenda is to destroy you and keep your children as long as possible.

DHS will find, coach and bring every person they can to testify against you and will have experience with YOUR judge. They will know pretty well what YOUR judge requires from them to decide to put your children in state jurisdiction and hand them over to DHS. You might think it just happened to you for the first time and not understand how the game was rigged before you got there. They are good at taking children. They do it all the time. They have a plan.

DHS and other social agencies like CASA will not make any positive comments about you in their notes while you have visitation with your kids despite the fact of how traumatic it is for you. Everything they write will be derogatory. You will not believe what they will say against you in secret court. They will make every attempt to turn your children against you.

The Governor's Advocacy office works for DHS. They are there just to make you think you are working with a just government. You are not. They are **TOTALLY CORRUPT**. The Citizen's Review Board is in the DHS pocket and is part of DHS. For all practical purposes the judge does not work in a court of law but works with DHS against you. One big happy family at your tragic cost. You will find out that the American "justice system" is a lie.

DHS can best be compared to the American version of the Gestapo. Each well paid person talks about how over worked they are while violating your rights at every turn. The Governor and Legislature will talk about how much more money they need to throw at DHS for new case workers and new viewing rooms in the child trafficking empire. State confiscation of children is a form of genocide against lower income families, families least likely to have the resources to fight back against so many people. Children in foster care seldom fair better than they would if left in their families.

DHS allows and promotes anonymous reporting, a violation of your constitutional rights to face your accuser. Hot line reporting can be absolutely false by a disgruntled family member, neighbors or medical personnel but DHS will act against you. They pretend it is out of the need for utmost caution but it is really about growing their child trafficking empire. **DHS primary goal:** Single parent dependent families. Removing children for #cash. Criminalizing husbands and boyfriends.

#Kids for Cash - The DHS Child Trafficking Mafia

DHS is a well funded agency that makes enormous salaries by taking your children. The definition of child trafficking is the movement of children for the purpose of financial exploitation by means of deception. By taking your children they make profit for scores of people in the “helping business”. Helping and protecting your family is not profitable.

DHS vs. CPS

Child Protective Services conducts the raid with police to take the children. This is the ultimate evil. Once the children have been taken DHS takes over.

DHS/CPS - How it works

While you will be new to this, DHS already has a plan and a system for how they take children. They are way ahead of you. They will have a highly organized, well paid system set up to take your kids and keep them away from you as long as possible while forcing you to jump through their hoops in the hope that you will get them back if you do everything they say. Sometimes that works, mostly not. They like subservient parents who bow to their demands.

People they use against you:

1. Accusers will be schools, doctors, extended family, ex spouses, your own children, step kids, neighbors, police and a multitude of anonymous accusers.
2. Supporting agencies - Casa, Cares NW, Liberty House and many others who all get \$'s.
3. The Police, Judges, District Attorneys, court appointed lawyers.
5. Case workers, supervisors, managers.
6. Counselors, therapists
7. Foster families, observers, transport personnel.

Lies and Deceptions:

1. Realize that case workers and police will lie or sensationalize a case against you with the willing and knowing assistance of the local press. A famous quote says that the government is a whore house and the media is their piano man.
2. DHS/CPS and police hide exculpatory evidence.
3. The media will destroy you. Even if it turns out your case is dismissed the damage can not be undone and that is the plan. It seems to justify DHS/CPS having taken your kids. The media goal is to help turn the public against you with highly sensational accusations in order to help the establishment destroy your family. It is shameful what America has become. It is foolish to think we have an honest justice system or honest media. They want fast selling sound bites and to build their careers. Strong libel laws would put the media whores out of business.
4. There is no penalty for police, DHS/CPS workers or accusers who lie or rig your case against you.

When DHS comes knocking:

What you will face

No Warrant, No Court order? Then don't let them on your property or into your home. Just because they brought a cop with them doesn't mean they have authority to do jack. First of all, if you have any possibility at all, just get out of the state. You will think that what you are experiencing is unique, even if it is very troubling. But why should you be surprised with what DHS does to you and your family? If you read what we will describe below you will realize that they are doing this very evil deed to many many families with extreme trauma to parents and children.

DHS will OWN your family.

There are many ways you can enter the DHS system. Just think of the many times police pull people over for supposedly that missing tail light as a means to justify the stop. Some outright event or even superficial event may trigger DHS to spring into action and take your children. They will say they are taking your children because of "risk" or "in the best interest of the child".

Examples:

A domestic dispute

An emergency room visit where staff are trained to try and impose "abuse" definitions on what they discover. Remember, there is a LOT of money to be made by taking your kids and DHS has many enablers fishing around for opportunities to feed this evil machine.

An anonymous report

An angry neighbor, busybody

A teacher. Someone at church

Other "mandatory reporters"

A mishap on a family outing

Poverty

Being a bi-racial family

Being a minority family

Being a handicapped family

A missing baby seat or seat belt

An ex spouse

Child custody dispute

In laws, Grand parents or other family

Your friends and family will say stupid things that DHS twists to use against you.

Bottom line is you may not have noticed anything out of the ordinary. Your kids are playing on the front lawn. You run in to use the bathroom and the neighbor calls the hotline for "neglect". That is all DHS needs to trigger their child kidnapping.

Coping With Devastating Panic DHS/CPS Just took your child!

Your heart will be filled with terror as you see your babies taken away crying by the CPS/DHS case workers and the police. These are the most evil people you will meet. Maybe you were married one time and you think your spouse was a really bad person. They have no comparison to what these people will do. CPS/DHS will cut into your heart pain that you could never fathom. Like an ongoing death every day. A mortal wound to your soul.

I won't tell you to call your legislators because I think they will care about your case. But you can and should. Over and over. Let's hope they become weary. Let's hope it takes up more of their time than any other single issue they deal with till it becomes important to THEM. I won't tell you to sign a petition on line or open a go fund me account. I will tell you to hold on. Do not completely despair although you are up to your neck in it. Short term, grab as many people who can help you hold on. Longer term look at how you can find ways to bring wrath on DHS/CPS. It takes a solution. They have become too powerful. They are not afraid of the people. They expect the people to be afraid of them.

There are no good fast solutions right now because DHS/CPS is an out of control cash cow that greedy selfish feckless legislators have allowed to happen because for the most part it is not happening to them. We think we live in a democracy but we don't. Our government is so evil and getting worse. Sometimes you have to be the one to lead, organize, become available to others and pull together a resistance. A good lawyer is a partial solution but the money you spend, over \$50,000, won't fix the anger that you will experience as to how this has all been set up. Dig deep in your heart, draw near to God and friends. Take care of your spouse and children best you can in these circumstances. Turning on each other now will not help you. Blaming each other will not help you.

Have people you can call at any time when the stress of the situation crushes your soul just one more time. That is what it is like. Desperate aloneness. Look around, do you see DHS/CPS getting shut down or getting the pain they so gladly inflict on others. Everywhere you look DHS has bigger offices, new buildings, and there are CASA signs everywhere. This is the big big business of child removals. Few people know the terror families experience. Until it happens to them, they think it is all justified. Parents are to blame, because DHS said so. You will not believe the number of people who have sold out to the government lie because they or someone in their family has a government job and is getting a nice fat paycheck and PERS retirement.

Be one of those who do something in your time of greatest need because now you have the power to become a force. Organize, communicate. Help get literature out there. Bumper stickers. T shirts. Go to ground and fight back. If our legislators wanted to do something they could halt the budget. They could fix the disaster. But they choose to be impotent.

DHS Trials in Secret Court to take Jurisdiction of your Children

Traffic Tickets allow you to ask for a JURY TRIAL but you will not be allowed one when DHS takes your KIDS!!!

Think about that!

Your Constitutional right to a jury trial, to face your accuser.

Judges will ignore the law. DHS will ORGANIZE false witnesses against you.

DHS will take complete control of your children when the judge assigns them jurisdiction and will spin all events against you from the smallest of details, all **without evidence**. In all your life you will not find anyone as evil as the DHS/CPS Family Court System. If they all wore arm bands maybe they would be recognized for what they are.

Court appointed lawyers:

You will be assigned a useless or less than useless court appointed lawyer that kisses up to the court.

Court appointed lawyers for the children will agree with the mood of the judge and side with the judge against the family. They will not fight for or protect the rights of the children. They will not fight for the constitutional rights of the children to their family. They do not answer the children's phone calls. They fail to take prompt action on behalf of the children but still get paid. They will allow the court to abuse the rights of the child and say nothing.

What You Will Face in Court: Its rigged folks, the "fix" is in.

You will face seasoned DHS case workers, who are masters of guile, deception and betrayal.

You will not be prepared for the sinister, cynical approach and actions or statements that DHS and their horde will make against you.

The DHS actions will be in a secret court. No Jury. DHS's goal is to work with the judge against you. You will be facing a seasoned DOJ attorney working for the state and DHS as one of the state agencies. They will be experienced at twisting the law and doing the most damage to you as possible, most of it below the belt. They are there for one reason, to win and to savage you in the process. There will be at least ten if not more people in the courtroom who are there to go against you on DHS's behalf. All dressed nicely, like for a public hanging. Except this will be in secret. If it were conducted in a basement with a single bulb hanging from the ceiling it would fit the situation more accurately. The smell of death is in the room. The death of your family. The death of everything you love. The DOJ attorney and all the others will do their best to make you look like an unfit parent.

DHS gets Federal Title IVE funding if they remove your kids. They don't get that money into the state if they just work with your family to make life better.

DHS has been corrupt for years but legislators have failed to protect you and other families by failing to holding DHS accountable. Legislators talk about their struggle to hold DHS accountable except for “new legislation”. They have failed because they fail to ACT.

Your children have become “foster children”. The state continues to fail foster children who are abused and die in foster care. Your children are best in your home with FEW exceptions but foster children provide enormous “employment” for a host of parasites lined up to take the cash, and thus we call it “Cash for Kids.”

In your dealings with DHS about your children DHS will figure out what you want and don’t want and they will do what they find to be the opposite and most painful for you.

You will have no idea of how the court is going to be used against you.

The DOJ lawyer will do their best to intimidate and threaten you with **Termination of Parental Rights (TPR)**. Evil Theatrics. You will think, “This can’t possibly be happening!”

If you hire your own attorney (recommended) you will first be faced with finding one who has experience and passion for fighting the injustices of DHS. More than likely from out of county so that they haven’t had a lot of experience sleeping with your particular judge. You will need to meet with several and see what their connection is to the court you are in. Do your own background check. Have a conversation with them. What cases have they fought against DHS? Pay close attention to what they say about things like plea deals. If something makes you nervous about what they say, pay attention to it! Don’t plea. Lawyers are often supportive of the erroneous legal system that employs them.

Plan on spending at least \$50,000. Your attorney will hire a private investigator. That will be in addition to his first retainer of say \$10,000 to \$20,000. Expect \$20,000 and an additional first retainer of \$5,000 for a private investigator. More if he has someone like a valuable forensic nurse on his list. There are no shortcuts. You will exhaust all your money, all your assets and your family and friends money if you have any at this point. Remember you opposition will be well paid to show up and testify against you.

DHS/CPS will do all in its power to take and keep your kids as long as possible and look at adopting them out.

In court you will see a host of well dressed well paid people working to take your kids. They are NOT there to help your family. They will have unlimited funds to take your kids, far in excess of anything you had to raise your children with and pay your bills. YOU are their paycheck and they will cash you in time after time after time.

Ask your friends to show up at your major court dates. Even though the system is corrupt it is important that you have friends there to witness what they are doing to you and your family as most people will not believe it. You will even doubt what you just saw happening. Supportive friends are the most important thing you have in your life at this time. Every time you talk to your lawyer your bill will go up.

More DHS Tactics: How DHS Works Against You

What DHS will do to you and those you love:

DHS's number one goal is to take your children and destroy your family to promote their ever increasing budget.

DHS will cause trauma to your children. This trauma may be far in excess of any evidence they have of "abuse". They consider this acceptable "collateral damage". In other words abuse of children is OK if DHS does it. This includes emotional trauma, physical injury, physical abuse, sexual abuse, forced vaccination against parent's wishes and exemptions, multiple foster homes and ultimately death in the foster home. The next time parents will see their baby that DHS kept so safe it will be in a coffin.

DHS is controlled by no one. They are a state within a state. They are like communists. They are like Nazis. What is the difference? Both groups have ultimate power to abuse and did. Ultimate power. Ultimate evil. The abuse of the people by the state.

DHS will send the police to your home on any pretext to begin their investigation.

DHS will try to force their way into your home. They will violate your rights if you are not informed.

DO NOT allow the police or DHS onto your property or into your home.

DHS will attempt to get the mother to testify against her husband or boyfriend with promises it will help her get her children back. The man will at least be one of their trophies when he is in prison.

DHS will try to get mother to site domestic violence.

DHS will encourage a restraining order

DHS will collude with the judge to get a no contact order between the mother and man, forcing the man to move out and away, breaking up the family and straining the survival relationship they have, making the mother more dependent on the state and susceptible to their pressure. This can destroy the relationship and cause enormous financial and personal hardship.

DHS will promise money and housing to try and lure the mother to testify against her man in order to find means to charge and prosecute him and take him out of the picture. This is especially important in states with corporate run prisons.

DHS will use in-laws, ex-spouses and extended family against you.

DHS will find any means to use older children's wishes against you even when the older children may not know how they are being manipulated.

DHS will demonstrate to your kids that they have more power than their parents. (Matthew 10:21 And the brother shall deliver up the brother to death, and the father the child: and the child shall rise up against their parents, and cause them to be put to death.)

DHS/CPS Tactics Cont'

DHS will fail to provide timely discovery as required by law.

DHS will conceal discovery that will clear your name and show that someone lied.

DHS will get away with any illegality they can. They are willing to act illegally.

DHS will mislead the court.

DHS will deny you your rights during visitation.

DHS will tell you that you can not take photos or videos of your children.

DHS will get the foster family to work against you.

DHS will NOT follow recommended frequent visits required for infant children.

DHS will tell you nothing about their actions or the legality of their actions.

DHS will work by bluff or with impunity knowing that the inexperienced family will have no way of knowing their actions are illegal or how to stop them. A vigilant lawyer \$\$\$ will be constantly fighting their attempts to thwart the law.

Emergency room staff are trained and consulted by DHS to portray injuries as abuse.

DHS will demand you take classes that are extensive as conditions to get your children back. They won't tell you before you agree that you won't be able to get your kids back till you have taken at least 12 weeks of classes. Always a hitch. Time delaying tactics because lots of people are making money off each one of your kids each day. This intensifies the alienation of your children.

DHS will attempt to force the immunization of your children.

DHS will know nothing and admit nothing about all the good healthy aspects of your family and will use every language and opportunity to attempt to capitalize on the negative.

DHS will have foster parents believe parents are bad people. Parents are discredited.

DHS does NOT have a procedure for vetting false accusations so they do not vet for false statements by accusers.

DHS supervisors have no comment when it is pointed out that there is no accountability for violations of DHS workers, no discipline, no one being fired or written a citation.

In society “foster parents” and “foster mom” are a postive image propaganda. Real parents are completely invisible. Our goal is to make parents HIGHLY visible.

You have a constitutional right to your children and your religion. You have a constitutional right to NOT vaccinate your children.

DHS/CPS Tactics cont':

DHS will NOT report or document abuse committed by an accuser. They ignore mandatory reporting in these cases. They will NOT document anything that contradicts their agenda.

DHS is NOT pro family but pro state control of families.

DHS is pro single parent families.

Divide, Conquer, Make Dependent

Alienate husband and wife

Make false statements

Conceal evidence or documents

Delay delivering documents/discovery

No due process, no 12 person jury

Violation of constitutional rights

Secret court

Take children with no **evidence** of abuse

Talk about the "risk of abuse"

Make negative comments in their reports, not objective reporting

Make one parent move out

Fail to notify extended family

CASA: No positive reports

Delay Delay Delay

Mention a report that is negative then deny it exists when you ask for it

Twist the comments the foster parents make in passing without foster parents knowing their simple comments got changed and used against family in the DHS reports

DHS stands by while police prosecute and jail innocent parents

Court appointed Lawyers tell parents to make admissions even if they are not true

Court allows DHS abuse of power

DHS will threaten a parent that they will take a child if they don't testify against the other parent.

Stop face to face visitation

Cancel a visitation and fail to make it up to the parents

Convince parents to plead guilty in criminal court

Make outrageous demands on a family, like that they move to get their kids back.

Disregard expert witnesses.

What happens in court will be far different than you expected

You will not be able to stop the train. You will only be a witness to the cruel execution of your family and the lives of your children. You will see how many people are in court on the side of DHS to testify against you or recommend all the things which must be done to you and your kids. You will be stripped of all your rights and powers as a parent.

DHS/CPS Tactics cont'

Fast track termination of parental rights and adoption

Try to destroy families instead of reunite

Traumatize children and especially infants

Get a court order on false allegations

Invite disgruntled ex-wives or ex-husbands in order to sway the court

Target bi-racial or minority families

Target low income families

Target handicapped families

Target families with health issues

Disqualify a relative for a foster parent while putting a child in a much worse situation

Take action they know to be unsettling to the parents

Paperwork will list "Adoption" as concurrent plan. This is how they intend to terrorize you the entire time.

Like a carefully orchestrated mafia, DHS uses agency (paid contractors) statements with no regard for the truth, as justifications for their rulings.

DHS will bring witnesses to court to make false statements against you with NO evidence and the judge will gladly use this to justify taking jurisdiction over your children and making them wards of the court. It will not matter that you know this is not true. You will have no recourse.

Lawyers can show that something is true but the court can easily choose to ignore it. Did you get that? Take your children with no evidence, no forensic evidence, No jury, then prevent you from discussing the case that just happened to you and your children in the court.

DHS will press the judge for certain actions like forced vaccinations even if you have exemptions. Then when they are asked they will slyly say they were just following a "court order".

How much is being spent on your children? On each child?

There is no criminal liability for DHS workers destroying lives with deception. They are never called on the carpet to answer to YOUR accusations against THEM.

**Talking to politicians such as county commissioners or legislators is important if only because it burns their bandwidth and DHS bandwidth. However I am sincerely skeptical as to how useful it is apart from that.
Be their headache.**

Judge's Tactics

List of Tactics Corrupt Judges Use to Wrongfully Take Children from Protective Parents:

Perversion of justice

Corrupt judges

Secret courts

Wrongful jurisdiction

Wards of state

- Judges often meet in Chambers with all Attorney's, G.A.L's to make deals without client present and no audio video proof of what is being said.
- Judges ignore testimony, facts and witnesses
- They will intentionally confuse issues in a case and attempt to confuse witnesses who are on the stand
- They will use Courthouse Security Guards to intimidate people, by interrogation or by following you
- They will collude with court appointed lawyers and make decisions without logic or proof
- They will give you no due process
- Frequently ignore the law and your Constitutional rights
- They will make biased judgements against you while the other party will break court orders with full judicial immunity
- Threaten you to sign paperwork under duress without discovery
- Allow certain parties to commit fraud upon the court (perjury) while the other party is threatened into silence
- Judge will institute court orders which they will break, or allow other parties to break, while other parties cannot
- They will never admit wrong doing, even after proven that they did
- Judge will ignore witnesses or evidence that does not fit objective
- Judge will continuously side against one party
- Ignore crimes from certain parties
- Rubber stamping everything one side does
- Sealing documents so crimes are hidden
- Placing no contact orders on husband and wives, forcing one to move out and damage the family
- Placing gag orders
- Changing or removing the court recorder's record

- Failure to consider evidence or hear petitions - Take kids without physical evidence.
- Denying constitutional or civil rights
- Stopping you from representing yourself
- They will create Orders based on insufficient evidence from certain parties
- They will create Orders based on fiction that will force you into contempt of court

Deceptive Law Enforcement Tactics

Law enforcement officers are trained to lie, make false statements, mislead, try to entrap, hide facts, twist facts and timelines, emphasize one fact while completely conceding or downplaying another fact that gives context. They will conspire at the station how they are going to set someone up with the appearance that there is “evidence”. Law enforcement will write up one set of statements while totally ignoring or downplaying another set of statements or testimony that completely contradicts their desired outcome for an arrest. Matter of fact, the contradictory information and statements may not appear anywhere, as if they never happened. That is why in the US today there is a very low level of respect for law enforcement.

Deceptive tactics of supporting agencies

Have you ever read in the paper that such and such happened according to an “informed source who is not at liberty to speak to the press” and that is why their name is not published? Well in fact, the publication is using a very sleazy standard of journalism because they are basically quoting a nobody as if they were a reliable source for the article. And then someone else will quote that publication and before you know it you will think it is so true that you can even look up the original person and ask them yourself. Well, of course you can’t and that is exactly the problem.

So when you and DHS are in court, DHS will roll in all their “supporting specialists”, “supporting agencies” and use them to prop up their case against you as if their being there suddenly makes it all legitimate. But it makes the sham court look good while they destroy your family right in front of you. And if they are all proven wrong? Do you think they will back up and correct the problem? Of course not.

The People Marshalled Against You Endless Money and Power

Law Enforcement
The District Attorney
DOJ lawyers
Juvenile workers
DHS Case workers

DHS Supervisors

DHS Managers

CASA or some other supporting agency

Some kind of “safe house staff” who will testify against you

Assigned lawyers for each child who will work against you in the pocket of the court

Counselors

Doctors

Nurses

Hospital staff

Teachers

Activist judges

You will not find one friend. If you are facing criminal charges also then you will not testify on your own behalf. What you say WILL be used against you in both cases.

The press won't believe you. They will publish the sensational.

Lawyers won't take your case or they will take your money and do very little.

Many if not most people will figure you are guilty of something so they do not care. Won't ever happen to them.

All kinds of supporting non profits and service agencies are used to “extend services” to DHS “families”. Keep in mind that these supporting agencies are private contractors and they are paid royally for what they do. In other words your kids are BIG BUSINESS.

Gold Diggers and Foster Farmers.

What this will cost you:

Plan on easily spending \$50,000 to \$100,000 dollars. A good lawyer is hard to find. A bad lawyer of which there are many will cost you more money than a good lawyer. If you don't have time and money to do it right when will you get the chance to do it over?

How long will this take?

Your case may take from months or until the rest of your life.

The Concurrent plan for adoption: DHS/CPS has a concurrent plan for adoption. They use this as leverage from the very start. This is a way to terrorize parents. The DOJ lawyer will push for Termination of Parental Rights. They refer to this as “TPR”. The staff at DHS/CPS use this as leverage from the very start.

After DHS takes your children, your children will be living the life of the damned. This is especially true for the trauma your babies will experience. Hours stretch into days, days into weeks, weeks into months and months go on past a year. Your life has stopped. All that was dear to you and “important” and joyful has faded into the past. You have to find it in yourself to be able to weather this storm that is thrown against you.

All in a day's work for the Devil's own at DHS.

Your Advocate?

There is no one fighting for the parents.

Parents have no advocate.

Think about that. DHS and the courts have all their people assembled against you at tax payers expense, and there are no advocates for you?

What ever the parent's situation nothing justifies DHS and Judge's abuse of power. And that is what it is. No oversight, no transparency, secret courts.

There is no advocate for you to make sure the court appointed lawyer pulls their head out of their ass and quits kissing the judge's back side while you are destroyed.

People will give you all kinds of advise: Do this, do that, go see so and so. Have you contacted your legislator? Hopefully they will be there for you in court and gain a realistic idea how brutal the system is going to be to you.

Surviving Visitation:

Not one complimentary statement by DHS case workers or CASA workers in their reports from visitation times. This is emotionally exhausting. Room observers can be a little bit better about this.

Visitation:

1. Can be very stressful (and that night and next day)
2. Plan stress relief before and after visitation. De-escalate.
3. Don't feel guilty if you do a time out or something fun to cope. You are saving and mustering emotional energy for the long fight for your children.
4. Set up a series of moments and activities you do to honor your children in this terror.
5. Have something special for your kids each visit however small.
6. Read in the Book of Psalms every day.
7. Never accept that it is OK that they stole your kids.
8. Realize that they may adopt them out.
9. People say "be cooperative". What? With Satan?

Misconceptions:

1. Only bad parents lose their children - Wrong!
2. Bad parents have no rights so it doesn't matter what lies DHS makes up - Wrong!
3. Your children can't be taken based on false reporting - Wrong! You have a constitutional right to face your accuser. Anonymous reporting violates this right.
4. Police don't lie - Wrong! Police are taught to lie in order to incriminate and entrap.
5. Only OTHER people lose their children - Wrong!
6. Courts are fair. No. They are manipulated for a pre-determined outcome.
7. Police don't knowingly put false statements from accusers in police reports and prob-

able cause statements. Wrong! Police will stack the case against you so that the press will pick up the story and print it, prejudicing the public against you. When it turns out there are no facts to back up the accusations will the press or the media retract their story? No. Absolutely not. Even though they have destroyed your reputation.

8. DHS workers don't lie. Of course they do.

9. DHS/CPS will say they are "here to help your family". What a lie. The record shows they are here to destroy your family.

Do's and Don'ts

Do NOT involve in drugs or have any drug user on your property or attend their residence.

Do NOT engage in anything that can become domestic violence. When you have your children taken from you for what ever reason emotions run crazy high. Partners can fight as a result. Take a time out. Always remember to leave if there is a confrontation and take a time out.

Do NOT use alcohol during difficult times like on days of visitation or court.

Do NOT let law enforcement or DHS/CPS on your property without a warrant or court order.

Know where your kids are and what they are doing and who they are with and when they will be home.

Wear a body cam when ever possible if you have a DHS/CPS case.

Do make DHS put everything in writing.

Don't trust DHS claims that they are trying to get your kids back to you.

Do build a close circle of friends to support you in what is going to be a very very rough ride.

Do seek God's help and guidance. Pray without ceasing.

Do contact your legislator because you will burn their bandwidth and add negative connotations to the DHS name. Remember the squeaky wheel gets the grease. The legislature and Congress have failed to reform the laws that encourage DHS to take kids. There is massive money in the child removals. It IS child trafficking. Constantly follow up. Go to their office. They like you to make an appointment. Sometimes just popping in is of more value. Pressure legislators that it is their job to fix the problem. Assure them that their performance will be a campaign issue.

Do realize that DHS will exploit any flaw, discrepancy or difficulty in your family: financial, emotional, racial or even a handicap.

When you lose your children you will wonder how you could have been so misinformed.

Do NOT admit to anything. Never sign an admission. DHS and deadbeat court appointed lawyers will try and trick you and sell you down the river. They will even try to make you make a false confession with promises it will help you get your kids back. They will use this against you, it will not help you get your kids back.

Be strong, Be relentless, Be aggressive.

You are welcome to your emotions. Manage them well.

Never make threats or insinuate threats

DO try to make your relationship better. Do not believe DHS when they tell you that if you testify against your spouse you will get your kids back.

The Citizen's Review Board

Citizen Review Boards CRB is NOT for you the citizen but is to rubber stamp DHS actions. They invite you to speak in the announcement letter but they don't intend to leave you time to do so or they will not want you to talk freely. They will do their best to sideline you and keep parents from speaking. They will not document your statements citing illegal or coercive DHS actions. This is their means of claiming they have oversight. They will say they will make "recommendations". Then they will say that they can not force DHS to follow them. So what is the point? To make you feel there is hope when there is little.

Finding a Good Lawyer

Court appointed lawyers will make deals in judges chambers.

Court appointed lawyers will dismiss or ignore or downplay important and shocking evidence.

Court appointed lawyers will ignore events which are the immediate basis for a mistrial.

Court appointed lawyers will not return phone calls or emails.

Court appointed lawyers will down play how dangerous and treacherous DHS trials are to you and your children.

The pool of court appointed lawyers working in close proximity to the same judge every day reeks of failure.

A court appointed lawyer will fail to oppose the judge. A lawyer will fail to stand up and ask for a mistrial when the judge harasses the witness. When DHS withholds discovery, the lawyer will not contest it, jeopardizing the family's defense.

Foster homes for children are often the result of DHS abuses. We often hear that there are not enough foster parents for the *growing* DHS #kids for cash child trafficking business.

The lawyer will say, “The DHS trial is not important, the criminal one is.” Bull. They are BOTH important. The lives of your children depend on the outcome of the DHS trial.

Court appointed lawyers for the children will claim “best interest of the child” while ignoring the extreme abuse of children and infants who are separated from their families with ZERO evidence by Oregon DHS/CPS.

To find a good lawyer is not easy. They need to believe in your case, they need to show you cases they have won against DHS. Get a sense if this is all just a game to them, win one, lose one? How they talk about money is an important indicator. Of course they have to be paid. But different lawyers see money different ways. Few will ever take a case on contingency. You need a good working relationship with your lawyer with some level of trust. Because they represent you don't sit back and expect them to take note of everything. If you have concerns if they are going to speak up about something, ask them in advance before the opportunity is lost.

Ask the attorney about strategy. You will find out how experienced they are and if they are listening to your concerns. Try not to overwhelm them with information despite the fact that this is an extremely overwhelming emotional time for you. Focus.

Keep ahead of your bill. When you don't pay, work will slow down. They may not tell you that, so expect it.

The Oregon State Bar is Guilty

The Oregon State Bar must take responsibility for much of the agony placed on families by judges and DHS as it is an enormous cash cow for lawyers all over the state, an endless stream of cases and cash. Lawyers become judges, No? Judges cooperate with DHS.

The Oregon State Bar is a self appointed agency. They have no legitimate authority except to dominate the courts between judges and defendants. They create the ring. You and the judge and the DA and the lawyers are in the ring and they all beat the hell out of you till your money and health and family is gone. But no one addresses the system that allows this.

The Lawyer Dilemma

While DHS cases are a massive cash cow in Oregon, there are not enough organized lawyers to take on the DHS cases defensively and offensively with civil action.

Lawyers are approaching the issue piecemeal when a lawyer pool is needed to address this very corrupt system.

The DHS court and overall judicial system works against targeted families.

Wealthy or well financed families are seldom targeted.

Low income families, minority families, bi-racial families, handicapped families are targeted first. DHS picks on the families least able to fight back.

DHS generates a massive cash cow exploiting the children with little risk to themselves. If DHS uses poverty as a case against your family how is \$50,000 to \$100,000 or more of new debt for legal bills going to help? DHS knows their own hypocrisy. DHS overpowers families.

DHS works to wear down and exhaust parents emotionally and financially in order to gain the upper hand. This is not new information to lawyers, legislators or government workers who claim to listen to the public.

The majority of lawyers in the “lawyer monopoly on justice” fail to oppose the system or at least put up a good battle against DHS. If you find a good lawyer who will take on DHS because they dislike the injustice that they see you are lucky.

Maybe it takes more than one or two good lawyers to change the system. But after a few go arounds it should be obvious that the family court system is a rigged system that needs to be done away with. Change will require more lawyers to join together and lobby for an end to these abuses.

The Legislature Allowed This to Happen

Ultimately writing laws that control agencies is the responsibility of elected officials. In the case of DHS/CPS the Oregon Legislature is responsible for oversight and review. The question is, where is their power? The abuses by DHS/CPS are well documented in the press. One need not look far. So why has the Legislature not done something that makes a difference? Is it indifference or just gross incompetence? What ever it is, the Legislature is dysfunctional in its oversight of an agency that burns through tax payer money and has a dismal record of abuse, deaths in foster care, and destruction of families. For the niceties of the hallowed halls and nice clothes of the state capitol it is probably seen as irrelevant. A matter of class differences, it “doesn’t happen to nice people”.

Lack of Accountability

The Governor’s Advocacy Office (advocates for DHS)

The Governor’s Advocacy office in Oregon is a DHS defender. They are not there for YOU. The Governor’s advocacy office is made out to be there for citizens but one phone call and the tone immediately tells you they are not there to assist you. The Governor’s Advocacy Office is there to justify what DHS is doing, just one more partner in the crime of stealing your children. They will not talk to you to correct any problem. They don’t see one. Just imagine if they called you back and said, “You were right, we caught them concealing discovery, concealing documentation, going along with false information to justify taking your children.”

Contacting your state Rep/Senator

While it is important to contact your elected representative, half the time these people

seem incompetent.

The responses are the same. Sign an information release and they will get back to you after they have contacted DHS. And DHS tells them what ever they want and that is usually the end of the matter. They are our elected representatives but spend a lot of times wringing their hands and illustrating that they have very little control or voice on how our agencies behave and perform. The agencies themselves decide how they will interpret law in “administrative guidelines” so they basically regulate themselves. In the case of DHS there are no consequences for anything the case workers or managers do which violates parent’s and children’s rights. They tell the legislators that they are just following policy, (so was Eichmann) or that they are just following court orders when in fact it was the DHS lawyer (From DOJ) who told the judge what it was they wanted and the judge gave it to them.

Legislators have no idea what the parents are going through and in my opinion make little effort to try and understand the intensity of the situation. They are not able to put themselves in the shoes of the citizen. They are not willing to. They allow or are powerless to control the agencies that so dramatically effect the lives of the citizens. After they talk to DHS it seems it doesn’t matter what one says. Your voice is no longer important. The Legislators say nothing as if they are just rolling along with what ever DHS puts in front of them. With all the money flowing to DHS and the Legislature supporting them, it is obvious there is no money or intent to help parents or have a true advocate for parents. With all the well known abuses of families by DHS one would think that having a true advocacy office for parents to make sure their voices are heard would be a priority. This shortfall is also a failure of the Legislature.

Contacting your Federal Rep/Senator

The Congress Representative and the US Senator have a more professional staff and actually get you research information that you ask for relevant to your case with DHS. One example of this would be how much Federal money in Title IV-e funds flow into Oregon. Federal funds are an incentive for DHS/CPS to take away your children. If they don’t remove your children from your home they do not get Title IV-e funds. The entire system is set up to destroy families and traffic children. In the US more than 400,000 children are in foster care. In addition the Federal Government pays a bonus for the number of children who are adopted out. Another incentive to scatter children away from their parents rather than reuniting families. With unlimited power and very little oversight DHS/CPS take the action that increases their funding and grows their agency. Their agency grows the fastest when they take away children.

Gov. Kate Brown

Gov. Brown’s policy to resolve issues with DHS is to throw more money at the agency and hire hundreds of new workers so that more children can be taken from their families

faster. No where will you see increased oversight or staff being held accountable. Exactly the opposite, Gov. Brown set out to make sure that there is a DOJ lawyer for DHS in each county to defend their actions. Once again that means that the DOJ lawyers are not working for justice but to defend the actions of DHS and tell the court what they want. And that is what they get. Once again, taxpayer money paid to destroy families, not to gain justice. Justice in the American court system has become a joke.

DHS Notice and Practice of Civil Rights

Freedom of speech. DHS will decide what it is. If you make any negative comment about DHS to your children they will make a no contact rule against you so that you can not contact your children without their permission. In other words you do not have freedom of speech to discuss what you would like with your children. I call out Stacey Daeschner, Polk and Yamhill County DHS manager for this.

DHS violates their own policy.

You can file a complaint with the Federal Government if DHS has removed your child as they get Title IV Federal dollars when they do so. It is an incentive for taking children. Since it is Federal money you can contact the US Department of Health and Human Services, Office of Civil Rights

1-800-368-1019 or OCRComplaint@hhs.gov

What Does Prohibition Against Retaliation Mean?

The DHS Notice and Practice of Civil Rights poster says that you are free from retaliation. So when you disagree with what DHS is doing to your family, when your children are upset about what DHS has done to them and their family, DHS retaliates by saying they will not let you have unsupervised conversations with your children.

So what the poster means is that DHS IS going to retaliate against you. Orwellian double-speak. The poster of Non Retaliation means they WILL retaliate.

**DHS/CPS makes massive cash flow for scores of
“professional parasites” off each of your children.**

Terms you will come to be familiar with:

#Cash for Kids - #Kidjacking - #Erased

#Medical Kidnapping

#Taken - #Stolen - #Disappeared

#False Reporting

#Removal of Children Without Evidence

They oppose you because:

“You shouldn’t fight your case”

“You keep saying you are innocent”

“You think some injustice has occurred”

“DHS is always right”

“You are offended at DHS case worker’s arrogance”

How DHS creates the need for foster families

This may sound odd but foster families are one of the least important aspects of the DHS child trafficking scam. They are needed, only so that there is a place to put kids while LOTS of money is made off those kids. But what foster families get paid pales in comparison to the money being spent, tax payer money, on each child.

Have you been to the hospital? Have you seen each item wrapped in plastic with a bar code on it and it is charged to your bill when it is opened? Everything. The bill goes up and up and you didn’t see what the lab charged you or x-ray or ultra-sound or what happened in surgery did you? Each ‘specialist’ who is called in, logs their charge onto the account and you get a separate bill for that. The hospital bill and lots of separate bills. And you know it is expensive. Massive bill. Goes up and up and up. Well it is the same for the foster kids. While the children were in your care, not much money changed hands, but as soon as the State of Oregon DHS/CPS takes your kids there is a bill for everything. While the kids are in some foster home there is a massive cash machine behind each child. Interestingly enough Oregon State Legislators are **POWERLESS** to look up how much was being spent on a child in DHS care for the very parents of that child. In other words Legislators have no power or concern to follow up and find out just how big the money scam, the cash cow is for each child. Follow the money. It will tell you very important things. Apparently the Legislators don’t want to know or don’t want the public to know what is going on so that people begin holding them accountable and asking questions. Corruption. Silence. Our “elected” officials are not accountable to the truth of what is going on.

Foster parents can never replace parents.

What foster families don’t know and DHS sure doesn’t tell them.

Foster families never know the true story about a child and certainly don’t know the financial motivation for removing children. Some become foster parents ignorantly. Others do it greedily. At any rate they seldom know what the true story is about the family that DHS took the children from. If DHS will conceal and lie in court, then why will they tell the foster family the truth about how they ripped off the children with not a shred of evidence or how they made it impossible for some parents to get their children back by imposing

all kinds of requirements that they knew would never be met.

Is there a connection between DHS, high child confiscation levels and Oregon's liberal law on abortion?

Does Oregon government flat out not care about children and their families?

Disrespect for life, Disrespect for children, Disrespect for parents and parenting

Children as chattel of the state

Control, Power Imbalance, Forced Vaccinations

DHS Promotes Abortion - Confiscation of Babies

Women readily discuss that they are several months pregnant and because DHS/CPS has taken one or more of their children they are seriously considering having an abortion to spare themselves the pain of having their new baby ripped out of their arms!!! When one considers this dynamic one really has to wonder about how extremely useless our legislators are that they don't know this is going on or just don't care that it is happening to mothers AND fathers across the state. DHS provides information on how to choose to have an abortion in literature available on their reception counter. They believe in "choice" they claim but what kind of choice is this? And might we ask why they claim to believe in choice as to have a baby or not but won't allow choice to a parent to decide how that baby is educated and what kind of toxins, DNA, live viruses and chemicals such as mercury and formaldehyde are injected into that baby? So for the parent, DHS denies choice. Giving a mother the choice of having a child they immediately confiscate or aborting the child is not a choice. It is duress, a forced situation of tragic proportions. THIS is the face of DHS. Once branded a bad mother or bad parent, then always at the mercy of DHS because they get PAID to control.

The War on Fathers is a War on Families

Oregon family courts went after the fathers. Is anyone surprised that they are now coming after all the mothers too?

No enforced visitation. But once the children are taken away there is mandated visitation. Odd. One parent saying, "The children don't want to see their father", "The children are afraid of their father" becomes DHS saying, "We don't want you to see the children except like this or that." And who does DHS answer to? No one. And they know that.

So is it surprising that DHS takes children away from their mother's and tries to get mothers to further criminalize fathers, husbands, ex-husbands, boyfriends (in order to get the kids back) should come as no surprise to mothers. That DHS treats them like the system

DHS/CPS is Anti-Family Pro Foster Care

has always treated fathers should not seem odd or surprising.

DHS does this by false promises. DHS wants some kind of trophy out of the deal. Usually the trophy is a man. They encourage mothers to split with their man, to testify against their man, to get restraining orders, to claim domestic violence, to separate or divorce. DHS infers or tells the woman that if she turns on her man, if she helps criminalize him, that they will get the kids back faster. A nice place in hell for these criminals breaking up families. Many times DHS asks the court to impose a no contact order. They do everything in their power to destroy the family unit however fragile it might be.

A Death Sentence for Women

If you have watched up close what happens to a woman when DHS/CPS takes away her children you will know how extremely destructive it is. This should never be allowed without an immediate review by a jury. There are all kinds of interventions that can be done to help a family without doing this. Maybe there are several children, including infants. Or maybe there is just an infant or two or a new born baby.

The emotional harm done to the woman is far beyond what anyone can imagine who has not seen it in all its raw evil. Of course DHS/CPS case workers can never imagine it happening to them.

Some women have nervous breakdowns. Some lose their health. Others lose their jobs, are evicted, get divorced or separated, and go broke. The results are devastating. Where are the advocates for these women while well paid women case workers destroy their lives with a wrecking ball and “nice” state legislators go about their business?

The stories are similar. A child taken without warning. A baby taken at the hospital. A case worker pestering the mother or harassing her for some error in her life rather than assisting the situation, coming back over and over, prying for this and that information until they can claim they have enough reason to take the child. They are architects of family destruction.

Losing Children to Foster Care Endangers Mother's Lives, Elizabeth Wall-Wieler, March 29, 2018, The Conversation.

Churches Enable DHS/CPS

While churches oppose the state taking over the role of the family, in fact churches enable this very behavior coming from the people they oppose, the liberal left.

In order to advance their policies DHS/CPS workers recruit people in Christian churches, preferably white, to become foster parents and “help troubled families”. In fact DHS/CPS is trafficking children from low income families to higher income families all the while making a huge cash cow for themselves and supporting agencies. Many Christians politely work for DHS/CPS while denying what is going on, choosing not to see. Many Christians work in money making “supportive agencies” which are fed taxpayer dollars to extend “services” to families.

DHS/CPS wants stable, dependable white families to take foster kids. Dependable. Ignorant but dependable. Ignorant of what DHS/CPS is doing to families. However the Christian families constantly rail on the intrusion of the state into THEIR families. So why do they gladly work as a surrogate for DHS/CPS’s policy of trafficking children? Is it because their core beliefs are that they are better and taking the children away and giving them to a middle income family is justified in their version of “thy neighbor as theyself” and “family values”? Churches seem loathe to fight oppression. Is it because of their 501-c status?

Without Christian Families to support their fraud, DHS/CPS would be in a much more difficult position to hold their operation together. Christians can educate themselves and refuse to be a part of this ugly system.

DO DHS/CPS workers attend your church?

Are DHS/CPS workers recruiting “foster families” in your church?

Does your church support the “gospel of adoption” taking children away from their biological parents who have been deemed “inferior or unfit” by the very liberal government you oppose? Known cases testify to the fact that DHS/CPS lines up families in churches for babies they are targetting for removal.

When will it End?

These abuses will change when churches, Christians and homeschoolers stand up and join forces on this issue. The common view is that children are only take away from bad people and that “abuse” of “bad” people is ok or to be “overlooked”.

Churches Must Come Clean and Stand Up

DHS workers get excellent pay, benefits, PERS and “respect” for what they are doing at DHS while recruiting “foster parents” in the churches. But foster parents in churches are woefully ignorant of how DHS does what they do. Foster parents are completely ignorant on the realities and how the true parents of the children they are given have been treated. They are not counting the incredible trauma placed on the children. Did they child cry and scream every night when they were with their mother and father? How is that not **abuse**?

Case Workers and Managers

Statements from DHS/CPS Workers

Ormond Fredericks says:

Ormond Fredericks is a DHS manager of Yamhill, Polk and Marion Counties. He states that the relationship between DHS and parents is like this: “its an adversarial relationship”. So how does an adversarial relationship illustrate that DHS cares about families and wants to work with them?

Ormond states that DHS jurisdiction cases are based on the “preponderance of the evidence”. The concept of “preponderance” is that there is at least 51% evidence. That of course would suggest that you need at least **SOME** evidence. But DHS does very well without evidence, just accusations, just “best interest of the child” as decided by the state, not parents. Believe people, not evidence. Evidence is not needed. It is the “preponderance of the allegations”. Ha.

Ormond said, “we don’t have to give you anything”. Does that mean that DHS is here to conceal evidence that goes against their child snatching actions? Does that mean that DHS is fine to hide exculpatory information? Apparently so.

Hall of Shame: The Wicked “Children” of DHS

Ormond Fredericks	Salary:	\$91,427.60
Lorelle Lavine	Salary:	\$82,789.58
Rose Carpenter	Salary:	\$18,444.70
Mark Walsh	Salary:	\$66,241.52
Aubrey Haverkost	Salary:	\$49,282.16
Ellie Kataura	Salary:	\$60,000.00
Stacey Daeschner	Salary:	\$110,000.00
Rachel Wadsworth	Salary:	\$56,000.00
Kelly Hanna	Salary:	\$65,383.29

There is the need for an opportunity for redress for grieved parents. This redress needs to be with an independent 3rd party. The CRB Citizen’s Review Board and the Governor’s Advocacy Office **ARE NOT THE ANSWER**. Both of them rubber stamp everything DHS says and wants. Currently the state has vast amounts of money arrayed against parents, but little to no money budgeted for parents or a parent’s advocate who can hear what the parents have to say throughout this brutal process. That needs to change.

Studies Show Damage of Foster Care

Studies show that children fare better in less than perfect homes than in the trauma of foster care. Children in foster care are crushed, their spirits broken.

Handbook for Case Workers and Judges

One of the things that is really surprising is how DHS case workers feel they already have all the knowledge in the world. But they don't have exposure to a multitude of study's that look dimly on what they are busy doing. They are not concerned with the harm that is being done to the children by **THEM** due to their ignorance which is pointed out by the studies.

They are culturally ignorant and insensitive.

Studies:

Damage of Separating Families, Psychology Today, Allison Abrams, June 22, 2018

Oregon Interview Guidelines, Cruz

Casey Family Study 2006, 2007, 2008 Casey.org

Developmental Issues for Young Children in Foster Care - American Academy of Pediatrics Journal, Vol. 106 No. 5, Nov. 2000

Judge Leonard P. Edwards: *Judicial Oversight of Parental Visitation in Family Reunification Cases* Juvenile and Family Court Journal, Summer 2003

A bit of history

A war on minority children and cultures. In America and around the world Europeans have taken away minority children for hundreds of years and abused them in missions. This is still going on today in missions around the world where fake orphanages are set up and children are taken from parents. The supporting churches are told that the children are orphans when they are not. Little wonder that churches in America are silent about DHS/CPS workers taking away minority children or children from low income families. It is "justifiable" they figure?

American society is very tolerant of the establishment taking away people's children.

American adoption agencies operate under questionable tactics both in the United States and around the world. There is no way to tell if a child's parents really gave up the child.

One Person's Thoughts on DHS

When you go through the trauma of having your kids stolen by “nazi little bitches” your soul becomes broken. You don't know what is up, and what is down. Everything in your heart that was some “important” goal in your life is completely gone. All you can see in your mind is your children and your sorrow for them. Take the time to write down what you KNOW that these little bitches that run the foster prison camp for your children were doing that was bad, clearly bad, evil, overwhelmingly evil. Maybe you will recognize it all here. There are other lists in this booklet but this list came out of this process that one person went through.

1. DHS and the judge and the lawyers disregard the law.
2. They behave and operate outside moral laws.
3. They traumatize children, your children, by their actions.
4. They work in collaboration with judges, court appointed lawyers and supporting agencies for a preset agenda.
5. They get their direction from Federal guidelines to get Federal money which adds significant motivation for their actions. While some people can claim that it is a state agenda, in fact a very large part of it is a quiet and destructive mandate brought into law by President Clinton of the Lolita Express.
6. The DHS workers lie. A lot.
7. They conceal discovery.
8. They conceal or ignore the truth, while prosecuting their agenda in total moral depravity.
9. They refuse to acknowledge the truth when it is put right in front of them as evidence such as documents or photos.
10. They attempt to alienate wives from their husbands.
11. In order to alienate the wife from the husband they encourage her to divorce and make her promises of “support” and “housing and financial security” that they never intend to provide. “We will get you a house and he can visit.”
12. They blame the trauma they have caused the children on the parents.
13. They do not care how much emotional pain they cause the parents or the children. When the children complain about this they ignore it.
14. Judges are not interested in facts only agenda and even a vendetta.
15. Judges try to keep the facts that would reverse the case from coming to light.
16. Judges block good defense lawyers: “Objection” “Sustained,” “Objection”, “Sustained.”
17. DHS admits the children are traumatized. They do not care. Reminds of the saying

- “you can’t make an omelette without breaking a few eggs” vulgar mentality.
18. DHS and the Judge ignore the fact that the children want to go home and feel safe.
 19. They ignore the fact that the children are heartbroken.
 20. They will not let the children go home so they are holding them prisoners against their will, kidnapped, illegal detention.
 21. Judges take “jurisdiction” based on false evidence. They know and are not concerned that it is false.
 22. DHS and the police fail to vet accusers and write reports with accusations that they know are false and do not meet the criteria for credibility. When the accusations that are used to get a grand jury to issue a warrant fail to materialize, the police abuse the process and allow the accusations to stand.
 23. DHS will know that the evidence that they HAVE SEEN shows that an accusation is false but DHS will continue to stand by it. They will look you in the eye every time and know that the basis on which they are operating is false.
 24. DHS does not want you to defend yourself against what is being accused or against how they are treating you or your children.
 25. DHS wants you to agree that they are all right and you are all wrong.
 26. False accusations are a crime but neither DHS or the DA will hold the accuser accountable for blatant lies and fabrications because it will undermine their agenda, because it will undermine their “kill”.
 27. The judge and DHS will work and construct the time line to push it out as far as possible so that they can say not enough progress is being made and pressure adoption of the children you love.
 28. DHS, Judges, Police and well paid supporting agencies and “professionals” are the real criminals stealing our children and making an incredible cash flow profit economy off of them. In the end, the children do not matter because they never intend to listen to the children and have stolen their voice.

One Experience with CASA

Mean, try to turn children away from their families. Like Polk County CASA.

Negative

Manipulative

Biased

CASA workers work against the family in agreement with DHS. Their negativity towards parents is blatant and they make no effort to support parents or families.

Posters:

CASA wants you to volunteer while they participate in the destruction of children and families. “Help children survive what we do to them”. Human Trafficking.

A letter to Sen. Thatcher

Sen. Thatcher:

Would it be fair to say that legislators are powerless to control, supervise or investigate state agencies that abuse citizens of their civil rights?

I see only two options:

1. My case is not believable, nothing to see here.
2. Citizens should just solve grievances on their own, no need for elected officials or to vote for them because they are either powerless or choose to be.

I find it regrettable that your office can not do more to hold DHS accountable when the late Secretary of State Richardson readily admitted the significant short comings exposed in the DHS audits. The Oregonian is FULL of articles on the abuses of DHS. Attorney Steve Rizzo has numerous multimillion dollar cases filed against DHS and more coming. DHS abuses are killing children (Little Man Andrew - Springfield) and the taxpayer is being made to pay for these abuses.

These are the events I will be reporting on in a 48 page booklet I am publishing on the abuses Oregon families suffer at the hands of DHS and the failure of state legislators to investigate and stop them.

After all it is the legislature that has allowed DHS to be so abusive without consequences or punishment for illegal behavior that violate our most basic human rights.

Even a simple traffic ticket allows a citizen to choose a jury trial. But this is most certainly denied when taking away one's children.

The press in Oregon is on the side of investigations into the waste of taxpayer dollars. I requested Justin to find out how many hundreds of thousands of tax dollars are being exploited by the removal of my children.

Why isn't your office able to make a financial accounting of such a matter? Taxpayers need to know the incredible fraud that is taking place.

Follow the Money - Title IV-E Dollars

From Sen. Merkley's Office:

Title IVe dollars come from the Social Security Fund. So your retirement money is being spent to take children away from their parents. FY 2016. Oregon's Title IVe Foster Care Program was \$174 million of which \$95 million was Federal Funds. Title IVe funds for Adoption in the state of Oregon was \$66 million. \$11 million for Kinship assistance. The Federal share of that was a whopping \$44 million for Adoption assistance and \$7 million for Kinship assistance. \$8.2 million to child welfare and court systems handling child abuse cases.

From Childtrends.org:

State Child Welfare, Title IVe is the largest Federal funding for Child Welfare in Oregon,

\$144,637,496. Money for adoption assistance was up, money for foster care was down. Nationally 24% of children were adopted out FY2017.

CAPTA: Federal minimal definition of child abuse.

Congressional Research Service:

Child Welfare: State Plan Requirements Under Title IVe Foster Care, Adoption Assistance and Kinship Guardianship Assistance Program. Emily Stolfus Oct. 26, 2012 (See page 5) Judge must determine that reasonable efforts were made to keep the children in the home. CPS/DHS do not follow Federal guidelines.

Sen. Wyden: ***A Way Back Home: Preserving Families and Reducing the Need for Foster Care*** Aug4, 2005 “Differential Response”

Oregon Differential Response Final Evaluation Report, June 2017, Children and Family Research Center, University of Illinois.

Did Oregon State Senator kill Oregon’s Differential Response program? In the reports the program was successful but DHS training was insufficient and staff were incompetent. Sen. Gelser appeared to kill the program that had great potential for helping families rather than fixing problems within DHS.

Oregon’s Adoption Marketplace: adoptuskids.org oregonkids@boysandgirlsaid.org

Audit Finds Wealth of Problems with Oregon’s Child Welfare Office. Rob Manning Jan. 31, 2018 OPB

Child Welfare Audit is Much More Than “Just Politics”: Editorial. 9 out of 1,000 children in foster care in Oregon, more than double national average, Feb 11, 2018 The Oregonian

Statistics Related to DHS/CPS

Stats for Oregon - Children in foster care:

Approximately 8,000 children in foster care. 4,000 foster care homes.

Return time can be up to two years.

Resources:

Look for local support groups, family, church resources. Other families are going through a similar experience. Offer to help others. This can be a positive result from what you are experiencing. Attend Town Halls and Legislative Hearings. Make yourself heard.

Your Children:

**DHS Takes Children From Loving Families and Puts Them in Foster Homes Where They Lose Hope.
When will we fight back? When is Enough Enough?**

Vaccine Info

Did you know that on the National Institute of Health web site there is a wealth of information about the complexity of the vaccine issue and all kinds of relationship between the MMR vaccine and autism being discussed? And there is a whole lot more information than just that. But government officials in Oregon make out that vaccines are totally safe and parents should have no right to object. The NIH web site makes it very clear that there is no such clear cut situation going on with vaccines. They admit it on their web site with plenty of documentation about the problems.

CDC Content List shows formaldehyde, aluminum, thimerosal (mercury), DNA, live virus's and extracts from fetal tissue of aborted babies. Vaccines are soon to be a \$50 Billion industry. There are a growing number of vaccines and too many are given at one time. Did you know that if the court gives DHS custody of your children they can vaccinate them against your will even if you have an Oregon Exemption?

Faith, Science and Conscience: Using Aborted Fetuses for Pharmaceutical Production, Lifesitenews.com The Interview: <https://youtu.be/oBpF6piPxuk>
Aborted babies are still used in vaccines: Children of God for Life, March 14, 2019 Debi Vinnedge

Terminology

CASA: A supporting agency that works against parents

CRB: Citizen's Review Board (this is where the CRB rubber stamps what DHS is doing.

Ward of the court: When the judge takes jurisdiction away from you for your own children and makes your children possessions of the court.

TPR: Termination of Parental Rights - Not Constitutional

DOJ Lawyer: Lawyer from the State Department of Justice that works for DHS against you in court.

Children's attorneys: Court appointed lazy folks who take cash to stand by while your family is destroyed and your children are brutalized. They get paid a set fee whether or not they respond to the needs of your children, regardless of how much work they do or don't do on the behalf of your children. They seldom stand up against the court to protect the rights of the child.

Grass Roots “Results Based Activism”

Oregon DHS misconduct and what every Oregonian should know

Know Your Rights

1. Know your enemy.
2. Avoid “gate keepers” - Avoid people who want you to go through only them to get good information.
3. Have “good coms” - Communicate well with others. Stay in touch. Keep your circle of friends informed as to what is happening in your case. Ask for suggestions and weigh them to see if you want to use them in your plan.
4. Organize - Meet up face to face with other people working on DHS issues.
5. Print literature and stickers and help get the word out there how DHS/CPS operates.
6. Join forces with effective people. (Where are the “Oath Keepers” defending constitutional family rights?)

Push Back Against DHS

Most families are so stressed out they are afraid to fight back against DHS and their huge funding.

Suggestions:

Literature

Pickets: Clean, easy to read signs. Different message each side. 2-4 signs.

Stickers:

Stop DHS Child Trafficking

CPS Versions

Stop DHS #Kidjacking

Stop DHS #Kids for Cash

Same for CPS

Large, small, printed shirts

“DHS and Judges conspire to take your children”

Attorneys:

How many attorneys are working on DHS related cases?

What is the total attorney income related to DHS cases?

Strategies

Cooperate or Resist?

If parents don't fight back DHS will continue its abuses of parents and children in their well funded operation. Parents and children are put into a collective Nazi Ghetto only you can't see the walls. Then operating like the Gestapo, DHS does what they want to these parents and children. They pretend they have guidelines but since there is no oversight power, no consequences for violations, how do they have guidelines?

Action Squad

An action squad is needed to protect families threatened by DHS.

One of the things that we ask daily is how can we help families going through trauma at the hands of DHS? What can be done to protect them? What strategies work?

A squad is needed in each county to document what DHS is up to and help protect families' constitutional rights. Some families find they must get out of the state or even get out of the country to save their children.

Advocating for You:

If you would like help, someone to talk to:

Is there someone who can listen to your story and help you review your options? There needs to be an advocacy office and place where people can call in when in need. Build that network of friends. Don't make the mistake of thinking this is only happening to you.
