Subject: HB 2019 need to fund education
Date: Wednesday, April 10, 2019 1:09:58 PM

Hello,

I am writing to express my support for the need to fully fund our classrooms and invest in our children's future. I am a parent of a Kindergarten boy in the Hillsboro School District and already within this first year, I have seen the need to for additional help, support and resources within not only my child's classroom but the school as a whole. I whole heartedly support investing more into education and specifically not cutting any more funding for education as our educators can not afford this. My son's class is 28 students and this has had a huge impact on his ability to learn and thrive. He is on track academically luckily, but if any further budget cuts are made, I am afraid what the results will be for not only him but all of our students. It is crucial to full fund our classrooms and fight to keep funding at an appropriate level for our children's future.

Thank you,

Allie Henderson
