---

Dear Joint Committee on Student success,

Education is one of the most important investments for communities. We need more funding for education so that everyone can reach their full potential and become productive members of society. I have spent many hours working in Oregon public schools, and have seen first hand how much they are struggling from a lack of funding. I have also worked in public schools in other states, and so have seen how much students benefit when schools have the funding they need. Please please fund Oregon schools!!

Sincerely,  
Katherine Barton
