Subject: April 11 Hearing - Supportive testimony for HB 2019
Date: Friday, April 12, 2019 9:48:32 AM

Dear Joint Committee on Student success,

Investing in the youth of our state is a vital step in overcoming terrible graduation rates and the continual increase in the percentage of people living in poverty. Both rural and urban school districts need to be adequately funded to provide basic school and classroom needs. If this is not happening every single one of us are failing the future generations. There is no exception, period.

Sincerely,
Karlie Wright
