**Date:** Friday, April 12, 2019 9:48:14 AM

---

Dear Joint Committee on Student success,

Children are the future. If we take away programs that enroll intelligence, creativity, technology and physical experience we are depriving our future. What will it look like in a state without critical thinking, entrepreneurs, builders and scientists. We will be obese, dim and unhealthy. Invest in our students and give our future hope!

Sincerely,  
Linda McNamara
