Subject: Please vote yes on HB 2682
Date: Monday, April 15, 2019 8:57:16 AM

Dear Transportation Committee Members,

I am a physician at OHUS and a daily commuter in the city of Portland. I also bike commute with my children to school. Although drivers are usually very respectful of our little "bike train" a few are reckless. As Portland becomes more crowded, and drivers more impatient, we are in need of laws that protect cyclists as they cross through intersections. Thank you so much for your support of HB 2682 which will help to keep my family, and all cyclists safe on the road. Also it will help drivers be clear on the rules, and save them from the devastation of killing or injuring a cyclist.

Sincerely,
Carrie Milligan MD
