

Honorable Rules Committee Chair and Members,

We need to ensure that no candidate is excluded due to their race, ethnicity, or belief system. Likewise No one person or class of persons should have control over the rules of an election. All of us are equal and the rules to ensure our equality need to remain equal. The voting rights of our state should be enforced equally on all our elections. No one should be discriminated from running for office or voting in an election if they meet the qualifications as a candidate or voter.

Respectfully submitted,

Janice Dysinger

Gresham, OR 97080
