

My name is Chad Kernutt, I live in Albany, Oregon, and I am strongly opposed to HB2015 and I urge you to vote NO on HB2015. We are a country of law and order. We do not reward criminals for breaking the law. Illegally entering this country is breaking laws and taking advantage of this country and its citizens. No matter how much some of those in the legislature want to spin it, it is criminal and makes the illegal immigrant a criminal. How do we respond to this illegal behavior and lawlessness? We reward you with welfare, a paycheck, free food, free education for your kids, free medical (because we don't allow our hospitals to turn them away which floods our ER's making U.S. citizens wait longer and suffer), a free safety net/shield from law enforcement in sanctuary cities and states. All this great free stuff comes from the tax payers, it comes from my wallet. I'm not ok with my money being wasted on criminals who shouldn't be here or catered to, those who bypassed the legal route and cheated law-abiding immigrants and those waiting in line following the law doing it the right way. Those who are cheating the U.S. citizens out of their money and what their taxes should be going to. And now some geniuses want to reward these law-breaking illegal immigrants with a driver's license which will also automatically sign them up to vote as well. This would be a great abuse of power by congress which seems to be in line with everything else unconstitutional that's been coming out of Oregon's legislature this year. Those who have illegally entered this country are criminals no matter how much the leftist elements in society want to sugar coat it, they do not deserve a damn thing. They are criminals and they need to return to their countries. They should not be pandered/catered to and rewarded with privileges. This kind of lawlessness and insanity is why President Trump's message is resonating, it's why the American people (citizens) put him in office. Maybe it's time you guys start listening and thinking legally and constitutionally. Again I hope you guys will think rationally and with common sense and end this lawless ridiculous way of thinking, I urge you to vote NO on HB2015. Thank you.
