Subject: Objection to SB 2015 Licensing Illegal Immigrants
Date: Saturday, April 13, 2019 2:15:34 PM

1. I spent 20 years as a professional soldier defending this nation and must object to SB 2015's encouragement of illegal immigration and the invasion of this state by foreign nationals illegally in this country.
2. These foreign nationals are here only for financial gain at the expense of both low skilled and high skilled Oregon citizen workers.
3. Unrestricted illegal immigration damages the economy by undermining wages, damages the environment by the increased population pressures on infrastructure, and drives up the cost of housing resulting from rapid population growths' upward pressure on prices.
4. Additionally the voters of the State of Oregon voted with an over 66% majority overturning previous attempts by state legislature to license illegal immigrant. Illegal immigration is wrong and the people have spoken.
5. I've also not read of ANY safeguards to stop illegal immigrants from registering to vote with the obtaining of a driver license and I very, very strongly object to foreign nationals illegally in this country being given the privilege of voting.

Sincerely

Jim Ellington

"The willingness with which our young people are likely to serve in any war, no matter how justified, shall be directly proportional to how they perceive the Veterans of earlier wars were treated and appreciated by their nation."
