Subject: HB 2015 You gotta be kidding !

I would like to urge you to respect the will of the voters and reject HB2015 .

I am a registered Democrat yet I am appalled that the current Dem-controlled Reps are seriously considering overturning what voters just recently stated at the ballot box .

Please ignore Twitter and Facebook , these views are not Oregon voters .

More importantly we all know this is a ploy paid for by Big Business so that eventually all Oregon citizens who are paid to drive as part of their job will have tens of thousands of non-citizens competing with them for employment . Reducing their wages , benefits and job security . Just look at the construction industry , 50% taken by workers in our state illegally . I know about this personally . I was employed in homebuilding for 20 years and now have been a struggling self-employed contractor for 12 years .

We have enough homeless people and opioid addicts , condition hastened by unemployment !

Sincerely , Kenneth Adams
