I guess I was mistaken - I thought we lived in a democracy where you promote the interests of the people. When the bill for drivers cards for illegal aliens came before the voters we told you two to one "NO". When did you decide you know what is best for Oregonians?

While I am totally opposed to HB 2015 you have an option, and I believe a duty, to refer the bill back to the voters. We have clearly shown our opposition to driver cards to people illegally in our country. We deserve that our voice and vote be heard. Refer HB 2015 back to the voters if you must.
