Subject: NO to new funding of education before PERS reform!
Date: Tuesday, April 16, 2019 12:37:35 PM

With no resolution on the impending PERS crisis looming in the future the creation of a NEW tax on business is both counter productive, disingenuous and reckless. We must bring the PERS solution to a statewide vote to resolve it once and for all.

Once the PERS crisis is resolved we then can look at a more stable form of funding education in Oregon. NOT BEFORE.

HB 3427 should be shelved for a future date.

Thank you,
Keith Hill
