---

Members of the Committee,

So sick and tired of this Legislature trying to circumvent the will of Oregonians!

What part of Illegal do you not understand, the people that are in the United States, which include Oregon are not here legally, there are laws that allow immigration, those that do not follow the law need not be rewarded with the right to drive.

The people of Oregon spoke, we do not want these illegal aliens driving on our streets, they need to be returned to where they came from or follow the laws!
