The definition of the word "illegal", an adjective, is **contrary to or forbidden by law.**

Why would anyone in Oregon, citizens of Oregon, feel the need to welcome illegals to our country? Why should illegals make themselves at home, obtain a valid state ID and potentially have an opportunity to vote or benefit from OUR benefits which WE pay for? I think it's appalling that we allow illegals in our State. We have even declared our largest city a sanctuary for them. They take, take, take from us. Jobs, schools, emergency rooms and doctor visits ...and much more. Have you seen how our great country is being overwhelmed with illegal aliens using our resources and overwhelming services paid for by, and needed by, legal citizens? I am disgusted that illegal aliens get the rights, with no responsibilities. Go home illegals. Let in the legal immigrants who want to contribute to this great country. Let us stop the madness, and the lawlessness. Return us to a country where its citizens are protected and where we uphold the laws of our nation.

Sincerely,
Colette Fuchs
