We vehemently oppose HB 2015. It makes no sense to allow people who are not in our country legally to have a driver's license ... regardless if the excuse or reason. This puts our citizens at risk of injury or death caused by people who don't know or care about our culture and laws. In the process of gaining US citizenship they will learn about our culture and our laws and the importance of blending in as an American.

My wife and I are life-long Oregonians and we have personal experience with an illegal resident person hitting our car.
