TESTIMONY for HB 2015:

I favor HB 2015.

The more people who have a driver's license, the safer we all are.

Making driver's license testing available to all, even those without proof of legal presence, makes all of us safer.

I prefer to know that those who are driving on the roads are likely to have passed a test which shows that they know the rules, and that they have proficiency.

Thank you.
