Hello,

I'm writing to voice my support of the Driver's Licenses for All bill. As an educator and friend of many immigrants, I wholeheartedly support this bill. Immigrants will always drive-- they have to. Everyone who is able to pass a written and practical driving examination should be able to go about their lives normally without fear of deportation or being separated from their families. I urge this committee to pass HB 2015 in order live into our sanctuary state status by ensuring equal access to roads!

Sincerely,  
Maia Watkins
