Subject: Please pass HB 2015

To the state legislature,

My name is Jacob and I am an Oregon resident and U.S. citizen, and I am imploring you to pass HB 2015. Since as early as I can remember, I have believed that it is my job to love my neighbors as myself, and I believe that HB 2015 must be passed in order to live out this value. Not passing this bill would result in discrimination against vulnerable people, and this is not surprising given that a known hate group has been first and foremost in preventing the passage of this bill. Driving is necessary to meet many of our basic needs, such as getting to work, getting our children to school, and so on. Nobody should be denied such a basic necessity because of issues that have nothing to do with one's ability to drive competently (i.e. ability to access one's birth certificate. etc.). Again, please pass HB 2015.

Sincerely,
Jacob Hunt
