

Dear Chairman Beyer and committee,

I write this letter to strongly oppose House Bill 2015 which would give driver's licenses to illegal aliens whom are already breaking our Federal laws. This is a public safety issue and you are creating a magnet for illegal immigration that will directly harm Oregonians. We already have hundreds of illegals in our State prison system which costs the taxpayers every day. We have had over 130 Oregonians murdered by illegal aliens including by illegal alien drivers. Logan and Jessica Wilson were killed in 2018 by Eduardo de la Lima Vargas and he is now costing the state money. Do you want more blood on your hands? When illegal aliens are pulled to come here for a license they pose a public safety threat whether you think that's politically correct or not it's the truth.

It is obvious that any member of this committee who votes in support of this House Bill is putting Oregonians last. They're putting illegal foreigners over American citizens. Nobody has the right to come to America, it is a privilege. Do your jobs and actually represent the citizens who voted you in not some backward socialist ideology that pushes you to endorse breaking Federal law.

I am a candidate for Oregon's 5th Congressional District and I can promise you this: I'm going to retire Kurt Schrader in 2020 and I'll work with the Dept. of Homeland Security to bring Oregon into compliance. Whether we have to pursue fiscal penalties for sanctuary states in the House or we go through the DOJ and court system to solve it – this is a top priority for me. I will grind this axe until Oregon's anti-American legislators fold and we can finally have safety for the great citizens of this State.

Enough of this garbage! Support America for a change.

Thank you,

Joey Nations
