

Dear LPRO Analyst Gezelter,

I have a big concern about the tax on receipts in this bill. If this includes farmers and ranchers, of course our small farm has gross receipts over 1 million dollars, but our gross debits make our net income very low. And we are a SMALL farm in the scale of things. You will leave us with little to live on because most people don't have the high amount of debits we do in buying fuel, fertilizer, seed, etc etc. This is a burdensome tax for us. Oregon is going to lose business and drive rural people into poverty if this type of tax goes through. It needs serious reconsideration.

Sincerely,

Connie Dunham
