

Good afternoon,

I work as a substitute teacher in the Beaverton School District. I am also the parent of a current third grader, and another child who will be entering kindergarten in the fall.

I am writing to urge you to fully fund education in the state of Oregon by supporting and passing HB3427. Fully funding public education should be a very high priority for our state. I have experienced the ups and downs of our current funding system and our families deserve better. They deserve adequate resources and support, manageable class sizes, and there is a growing need for social emotional support for many families in our state. Thank you for all of the work that you do. I am excited to change the statistics in the state of Oregon such as class sizes and graduation rates as we finally adequately fund public education.

Thank you,

Rebecca Solonika
