

Dear Co-Chair Roblan,

Why does not one address the need for the State of Oregon to cut spending across the board rather than come up with just another angle to tax Oregon businesses. Our business climate is so negative now and this only makes it worse. Look to culturing more business opportunities for employment gains rather than continue the business nightmare that gets worse with each legislative session. Wake Up-- Vote NO on HB 3427!!

Sincerely,

Donald R Susan M RAMSAY
