

Dear Joint Committee on Student Success,

Thank you for your support of The Student Success Act, HB 3427.

I know that it will take sacrifices from all of us to meet the challenges in funding this bill. As a school board member at Lane Education Service District, I am committing to showing our community how well we invest these resources into effective ways to support our schoolchildren and show meaningful results. It is important that Oregonians get results, I'm committed to not only do we raise our graduation rates but we also show Oregonian how well our students do when we truly invest in them. Thank you so much for your help leading this conversation and bringing us to this point.

Regards,
Rose Wilde
